

# CONGRESS ASSEMBLES FOR MOST IMPORTANT AND HISTORIC SESSION WITHIN A GENERATION

## CAVEL FALLS BEFORE LARGE CROWD

Washington, D. C., Dec. 6.—Congress reassembled at noon today for what promise to be the most important and historic session of a generation.

Proceedings in both house and senate were brief, being confined entirely to organization and formal introduction on some bills and resolutions. In accordance with custom both soon adjourned and sent a committee to formally notify President Wilson that congress was in session.

Tomorrow the real work of the session begins when President Wilson delivers his annual address to a joint session assembled in the hall of the house.

Speaker Clark was re-elected and sworn amid cheers from the floor and galleries. In the senate, the organization was perfected by the re-election of Senator Clark, of Arkansas, as president pro tempore. Vice President Marshall was not in the chair for the opening.

In his opening address to the house the speaker paid tribute to Republican Leader Mann, and predicted a practically continuous session hereafter.

The senate floor and galleries presented the usual scene. James M. Baker, the secretary, called the session to order and the chaplain prayed for divine guidance for the preservation of peace at home and its restoration abroad.

Thirty-two newly elected senators then were sworn in. After swearing in the new members the senate recessed until 2 o'clock.

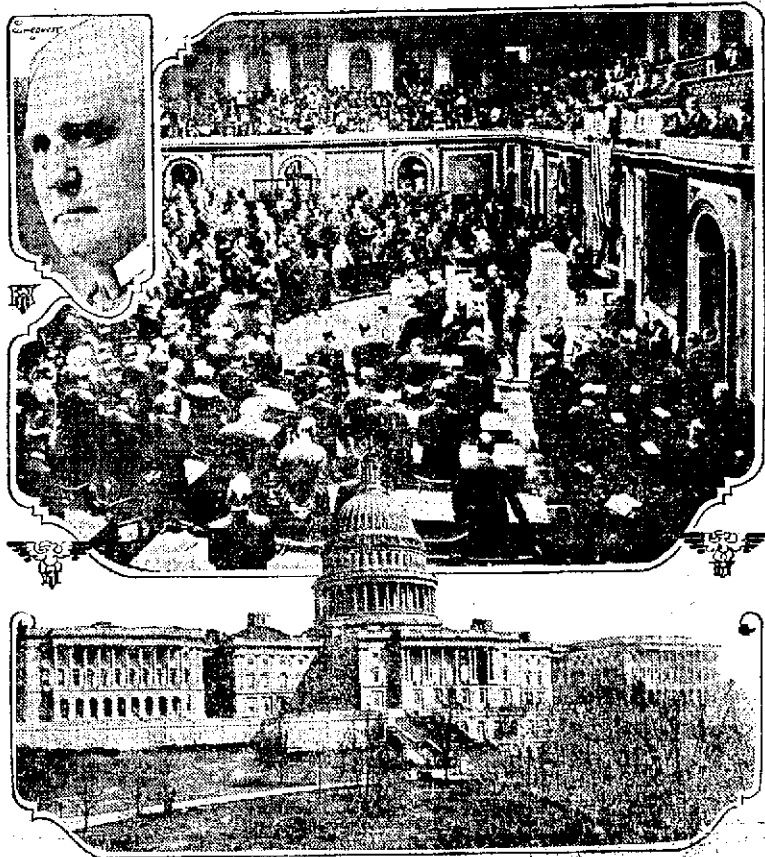

In the house meanwhile, bills and resolutions were pouring from the hopper at the clerk's desk. National defense measures were many proposals for various legislations.

There were many bills for railroad, river and harbor improvements, extension of the railroad service and a large number of the so-called private bills. It is not yet known whether the session will get no further than the stage of introduction.

Business of introducing bills did not deter some of the re-

## France Names Peace Terms

Paris, Dec. 6.—"France will not make peace until Alsace and Lorraine are won, Belgium and Serbia restored, and 'German imperialism and Prussian militarism are put beyond the possibility of resurrection,'" Albert Thomas, under-secretary of war, said yesterday. The declaration of M. Thomas is attracting widespread attention and is one of the first statements from a responsible cabinet concerning the attitude of the government in regard to peace.

The statements of M. Thomas were made in an answer to a large crowd assembled last evening in memory of the dead of the war of 1870. M. Thomas said:

"There will be no peace until our Alsace and Lorraine are definitely re-established as part of the French unity."

"There will be no peace until our unfortunate brothers of Belgium and Serbia are assured of recovering their homes in complete security and independence."

"There will be no peace until German imperialism and Prussian militarism are put beyond the possibility of resurrection."

"There will be no peace until a system of right founded of the victorious union of the Allies and supported by the free adherence of neutrals, has abolished forever the violence of war."

"Whatever may be the sacrifices, France, united, will go solidly forward to accomplish this end. Today before the terrible obstacle which confronts them, justice and liberty have only one road—that which our nation in arms opens to them, with the machine gun and cannon."

## PROSECUTORS WILL GET ORDERS ABOUT EXPENSE ACCOUNTS

Columbus, O., Dec. 6.—Attorney General Turner today prepared orders which will be sent to every prosecuting attorney in the state within a few days, calling on them to file with common pleas courts in their respective counties lists of persons or organizations who did not file expense statements following the recent

## MONITORS ARE TO ATTACK ON DANUBE

Paris, Dec. 6.—Four Austrian monitors are prepared to leave Rustchik in Bulgaria, on the Danube, to bombard Rani, a Danubian port in Roeschia, where an Austrian army has assembled," says the Bureau correspondent of the Temps.

"Information to this effect was received here today. In consequence the Roumanian government has decided to close all foreign navigation on the part of the Danube, which flows through Roumanian territory."

## BULLETINS

London, Dec. 6.—The British army in Mesopotamia which has been in retreat following its defeat before Bagdad has reached Kut-el-Amara on the Tigris, 105 miles below Bagdad without further fighting.

In the time set by the court, they may then be prosecuted under the corrupt practices act. The attorney general estimated at least 1,000 have not yet filed their expense statements.

Prosecutors of Chesham, Delaware, Delaware, Noble, Putnam, Ross, Union and Wyandot counties have reported all expense statements filed in their counties. Orders already have been sent to prosecutors of Cuyahoga, Franklin, Hamilton, Jefferson, and Marion counties.

With the orders went a list of those who had not complied with the law compelling filing of expense statements.

## BILL IS PRESENTED ASKING WOMAN SUFFRAGE

Washington, Dec. 6.—Woman suffrage workers, undismayed by defeat in Eastern states last month or by the failure of the last congress to grant equal suffrage took their fight again today to the national capital.

The Susan B. Anthony amendment introduced and defeated for many years, was introduced again today in the house by Representative Mindell, of Wyoming. A colorful and picturesque demonstration by suffragists of many states, including a parade to the capitol, preceded the introduction. The mammoth petition for equal suffrage, brought by Mrs. Sara Bard Field, of Oregon, and Miss Frances Jolliffe, of California, was lost at the last moment. It was about 18,000 feet long and bore approximately 500,000 names of voters in suffrage states.

## PORKERS STORMED CHICAGO

Chicago, Dec. 6.—Arrivals of nearly 50,000 live hogs today at Chicago, said to be an unprecedented number for one day's shipment to one market, led to stirring scenes at the stockyards, and caused a notable decline in prices for provisions, as well as hogs. All the facilities of the stock yards were taxed to care for the huge stream of porkers.

The fact that the packing houses here have of late been using immense numbers of hogs and have had several broad avenues of outlet for the manufactured product, did a good deal to cause the flood of receipts. Corn shortages in Iowa, South Dakota, Minnesota and Wisconsin is also said today to have a material influence toward enlarging shipping to an unusual degree.

## TWO SUBS ATTACKED ANCONA

Washington, D. C., Dec. 2.—The state department received today a message from Consul Mason at Tunis giving the substance of an affidavit made by Giuseppe Torris, an Ancona survivor, to the effect that the Ancona was attacked simultaneously by two submarines, one on each side, the one on the port side shelling her.

Judge James W. Bannan has completely recovered from his recent indisposition and is able to be at his offices in the First National Bank building every day.

## GERMANY DEMANDS REASONS FOR ACTION TOWARD OFFICIALS

## CHINESE REBELS REVOLT

Shanghai, Dec. 6.—Three outbreaks by small bands of rebels within the last twenty-four hours have been put down by the authorities who now apparently have the situation well in hand. The cruiser Chao-Ho, seized yesterday by forty men who boarded her from a launch, was abandoned by the rebels early today after she had been shelled and set on fire. It was reported at first that the crew of the Chao-Ho had mutinied but it developed today that the bombardment by the cruiser of other warships and the arsenal was carried on under compulsion from the rebels who surprised and overpowered the crew. Three men on the cruiser were killed and five wounded.

An attack from land on the arsenal at midnight was repulsed quickly after some rifle firing.

The third outbreak occurred at four o'clock this morning. A party of 30 or 40 rebels attacked the Chapei sub-police station throwing bombs which killed one policeman and injured three. The outlaws were dispersed by troops. Although a number of shots fell in the foreign settlement no damage of importance was done there.

Shanghai, Dec. 6.—A band of 30 or 40 rebels, armed with rifles and bombs attacked the Chapei sub-police station at four o'clock this morning. The rebels threw four bombs, of which three exploded. One policeman was killed and three were wounded.

A body of regular troops was brought up quickly and the rebels disappeared.

## VILLA MEN SURRENDER

Nogales, Ariz., Dec. 6.—General Francisco Ubalejo, Yaqui leader, surrendered with 300 of his men today at Tonichi, Sonora, southeast of Hermosillo according to reports received by Carranza officials at Nogales.

Colonel Trujillo with several other Villa officers and a number of men were captured near Hermosillo, the message added.

Columbus, O., Dec. 6.—Governor Willis had a busy "welcoming schedule" for this week. He planned to welcome to Ohio President Wilson, Brand Whitlock, United States Minister to Belgium, and Gifford Pinchot, president of the National conservation association.

(Bulletin)  
Washington, D. C., Dec. 6.—Count Bernstorff today presented to the state department a communication asking for the reasons for the request for the withdrawal of Captain Boyed and Captain Von Pape, the German naval and military attaches, respectively.

It was stated authoritatively though not in the communication, that the ambassador could under no consideration ask the United States to get safe conducts for the attaches. The German government was represented as considering it incumbent upon the United States to return the attaches in safety to German territory and bring their successors here.

Should it develop from the state departments answer that other incidents than the Archibald case and the testimony were considered by the United States in asking that the attaches be withdrawn, Germany will contest the withdrawals. Should the department reply that those two incidents alone were responsible, the withdrawal will take place without further inquiry or protest.

Even then however, Germany will consider that under the circumstances the United States must open the way for the attaches to leave the country.

The embassy was represented as considering that it and the attaches stand before the bar of public opinion. In such circumstances the understanding is that the embassy will deny that the attaches have in any way been connected with anything under attack other than the Archibald incident and the testimony in the federal court in New York.

All this action is considered by officials of the state department to be contrary to precedents of diplomatic procedure. While conferences upon the subject are in progress the two attaches, Captain Boyed and Captain Von Pape, will remain within the United States. They were both in Washington today and they have conferred with Count Von Bernstorff several times. Under all diplomatic usage it is only necessary for the U. S. to indicate to Germany that the attaches are persona non grata and it is not necessary to give a reason for asking their withdrawal. The German Ambassador's action today came as a distinct surprise to officials here.

## COLORADO PROHIBITION IS UPHELD BY COURT

Denver, Colo., Dec. 6.—The authority of Colorado to enact and enforce state-wide prohibition was upheld by the state supreme court today in a unanimous opinion written by Justice W. Gilbert. The court held that cities governed under special charter were without authority to continue traffic in intoxicating liquors after January 1, 1916, when state-wide prohibition becomes effective in Colorado under constitutional and statutory enactments.

## GIVE WILSON SOME INSIDE DOPE AGAINST MILITARY PREPAREDNESS

Washington, D. C., Dec. 6.—While many White House callers were kept in waiting, James Henderson, a Quaker from Barnesville, Ohio, delivered a sermon today to President Wilson, opposing military preparedness. He quoted extensively from the Bible to convince the president that the policy of increasing of the national defenses was wrong.

Henderson told the president he had been "liberated" by his associates to come to Washington to urge the president to give up the preparedness program, because the question of war and preparedness should be left to a higher power.

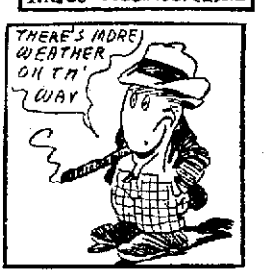

The president and many callers, who were crowding into the office, listened while Henderson spoke. The president thanked him for his advice and then turned to shake hands with the next men in line.

Henderson, who was accompanied by William G. Steer, of Tacoma, O., another Quaker, was introduced to

## U. S. FILES PROTEST

Washington, Dec. 6.—Ambassador Page, at London today, advised the state department that he had filed a vigorous protest with the British foreign office against requisitioning vessels of the American Trans-Atlantic company without the formality of the prize court procedure.

Yes, it's a fact—there's more weather on the way. I've been saying so for several days now and if anybody gets caught napping, I haven't gotten down brass tacks on this winter dope yet, but when I do look out, it's simply up to me to make annual history for the Hammer Club and I ain't gonna fall down on the job. Here's for tomorrow:

Ohio—Partly Cloudy tonight and Tuesday, probably snow flurries near the lake.

Kentucky—Partly cloudy tonight, Tuesday unsettled, probably followed by rain in west portion.

West Virginia—Partly cloudy tonight and Tuesday. Not much change in temperature.

# Says Pro-British Views Of Seton Is Real Cause Of His Resignation From Scouts

In reply to a press notice sent out from New York today, and published in the noon extra, which stated that Ernest Thompson Seton, chief scout of the Boy Scouts of America, had resigned stating that his reason for so doing, was because Chief Scout Executive West, had made woodcraft secondary in the scout program and militarism first, Scout Commissioner M. H. F. Kinsey of this city in an interview, states that this is not the real reason for Mr. Seton's resignation, and that he had been asked to resign nearly one year ago when the National Council had made the discovery that Mr. Seton was a British subject, and decidedly pro-British, which made it unwise for them to retain him at this time so important a position as leader of the 500,000 Boy Scouts of this country. It is a well-known fact that there has been friction existing between the two men for some time, the chief reason being that Mr. Seton feeling his importance, wished to dictate the policies of the Boy Scout Movement, which organization never amounted to a row of pins until James E. West became its executive, nearly four years ago. No doubt many readers will recall the fact that this man Seton is the one whom Mr. Roosevelt was pleased to call a "nature fakir" a few years ago, when he accused him of plagiarism.

As to his accusation of the scout movement having a trend towards militarism, I need only refer to an article appearing in our dailies a few weeks ago when representatives of the Brooklyn Council of Boy Scouts appeared before the National Council and requested them to make known their views on the question of National preparedness, claiming that the Boy Scout Movement was looked upon by many as either different to the problem of preparedness or was anti-military. After careful discussion, the executive board of the National Council at its October meeting, passed the following resolution, which explains their position fully on this matter as well as a strong denial of any military tendencies:

"Resolved, That the Executive Board take the position that it would be inappropriate for the Boy Scouts of America to take any official action with reference to any question of policy for the United States Government in matters capable of difference of opinion of a political character. Each official and member should be given full opportunity for freedom of thought and action as an individual but not as a representative of the Scout Movement.

"It should be clearly understood: "First—That the Boy Scout Movement is not anti-military. The Boy Scout Movement neither promotes nor discourages military training, its one concern being the development of character and personal efficiency of adolescent boys.

"Second—That the records show that the logical result of the program which the Boy Scout Movement is promoting is in reality as strong a factor as any other one agency which the country now has for preparedness, since it develops the character of boys and assists them in securing a proper conception of a citizen's responsibility.

"Third—Furthermore, boys who have been Scouts will, because of their training under the motto "Be Prepared," prove themselves more virile and efficient in any emergency which calls for their services as citizens of the country."

The foremost figure in the anti-militarist propaganda in America today is George R. Kirkpatrick, who will speak at Brushart's hall Wednesday evening, Dec. 8. His book, "War, What For?" has sent a thrill thru the nation and has achieved a popularity unequalled by any other book opposed to war. It has taken front rank among the vast number of books on socialism in this country.

Up to the present time 150,000 copies of this great book have been disposed of.

## KAPS WORKING ON HIS NEW PLUM TREE LIST

Mayor-elect Kaps was visited at his office in the First National Bank building this morning by a Times man, to whom he stated that he had nothing to make public at this time regarding his appointments. He intimated that he was still in doubt concerning some of the positions in the city's service which he will be called upon to fill between now and January 1st.

During the day Mr. Kaps held various conferences with his political advisors and some of the applicants, and was apparently making every effort to arrive at some definite decision regarding the majority of his appointments.

An early announcement of at least a portion of the appointments can be looked for, but Mr. Kaps said that nothing would be forthcoming today along that line. One rumor that gained circulation this morning was that John Eckhart was to receive the appointment as deputy warden of the state penitentiary and that the announcement would be made at Columbus either Tuesday or Wednesday.

It was said that he was to receive the place as consolation for his failure to land the liquor license job in this county, and that another object was to eliminate him as a possible contender for one of the choice plum jobs to be distributed by Mayor-elect Kaps.

Along with the rumor of Eckhart's appointment to a state job came the report that Roma Walker would have easy sailing for chief of police. Mr. Eckhart has been prominently mentioned for post police chief and safety director under the incoming city administration. His closest friends doubt the deputy warden rumor but say he might have it if he wanted it.

Since Saturday's issue of The Times the chances of E. K. S. Clinkenbeard for safety director have wonderfully enhanced. Druggist Dan Thomas has insisted that this appointment shall go through as originally stated, and it is based on good authority that Mr. Kaps has given him definite assurance that Clinkenbeard will be named.

## All cigarettes are pure, but—

pority alone doesn't make a cigarette SENSIBLE.

We don't know of a single one of our competitors who doesn't make his cigarettes of pure tobacco.

But a pure cigarette that didn't taste just right wouldn't do for you, would it?

And to be really sensible a cigarette must give you more than purity and a good taste.

It must be cool and friendly to your throat and tongue. And it must leave you feeling fine after smoking all day.

Fatimas are not the only cigarette that measure up to all these requirements. There are other sensible ones.

But Fatimas seem to have a big margin in their favor on their good taste. Otherwise they could not outsell all other cigarettes costing over 5c.

You can't tell whether they will just suit your taste until you try them.

At the same time, you can easily prove how sensible they are by these two tests.

Most men who try Fatimas say "Good Bye!" to all other cigarettes right away. That's why Fatimas sell so fast.

Why don't you try Fatimas today?

Test number one—How do you feel after smoking all day?

If the tobacco in the cigarette includes a correct proportion of mild and aromatic tobacco, you will find it pleasant to smoke. If it is harsh and bitter, you will find it unpleasant. If it is harsh and bitter, you will find it unpleasant. If it is harsh and bitter, you will find it unpleasant.

## Man Accused Of Insulting Little Girls Fined By Mayor

Probate Judge Beatty after receiving the statements of the theater attaches was disposed to give the man who said his name was George G. Weaver, another chance and turn him loose, whereupon Mayor Frick asked the man's return to his court. He would have passed upon the case originally, but was averse to having the little girls appear in court. He fined Weaver \$10 and costs. He promptly paid up and went his way.

The gray-haired and well-dressed stranger giving the name of George

C. Weaver and claiming to be a broom salesman of Franklin, O., who was arrested Saturday afternoon on complaint of indecent conduct, will be turned over to Probate Judge T. C. Beatty for investigation.

Attaches of a theater lodged the complaints against Weaver, saying that they had purposely observed his actions for a couple of days. He had brought two little girls to the theater on Friday and again on Saturday and remained through a couple of shows, or for almost two hours, during which time he had acted unduly familiar with the children.

The little girls were greatly distressed over the unexpected turn of events, sobbing as though their hearts would break. Weaver, himself, admitted putting his arms about the children, but denied any improper conduct, saying he liked children and had meant no harm. He said he had been in the city since Tuesday and had been feeling too ill to look for business and therefore found time to visit the theater. The mayor ordered a disorderly conduct charge filed against him and Weaver was locked up. The little girls were permitted to return home. They had been shopping when the stranger accosted them.

From remarks dropped informally by the members of the board after his argument, it would appear that his remarks had weight with them.

Mark School Dedication

Impressive exercises marked the dedication of the recently completed \$60,000 fire proof temple of learning, the Stanton avenue school, at New Boston Sunday afternoon when a very appropriate and interesting program of music, recitations and addresses was rendered. Nearly 600 people filled the auditorium and hall of the commodious building. The Jr. O. U. A. M. band of the city rendered special music. S. D. Eckhart, members of the school, Mayor J. S. Davis and H. G. Briel Jr. O. U. A. M. speaker made short talks. O. E. Ross made the acceptance speech when presented with two large 7 by 12 feet American flags. The program was carried out as planned with the exception of a talk by Dr. W. G. Cheney. Nearly 200 visitors from the city council of the Jr. O. U. A. M. were present. The auditorium was decorated with American flags and bunting the Jr. O. U. A. M. colors. George Laidley and William Giles of the New Boston council Jr. O. U. A. M. No. 285 and Supt. D. E. Ross arranged the program.

The Jr. O. U. A. M. members of the city, the band and New Boston Juniors met at the hall on Ohio avenue and marched in a body to the school. The program started at two o'clock with the audience singing "America." Rev. Morris H. Bridwell of the New Boston Baptist church delivered the invocation, which was followed by a selection by the band. Gave Credit To Eckhart

Mayor J. S. Davis delivered a short address of welcome and introduced S. D. Eckhart, county auditor who was superintendent of the New Boston schools for 12 years. Mayor Davis gave Mr. Eckhart credit for bringing the schools up to their present high standard. Mayor Davis is a member of the Jr. O. U. A. M. and introduced each of the speakers. Mr. Eckhart in his clear and forceful way thanked the New Boston people for the support given him in his 12 years of work with the village schools.

He spoke of the child being influenced by environments how to understand the purpose of education and what ideals are fostered by the parents for their children. He said "the school is a product of civilization and not civilization a product of the schools. The purpose of education is to develop the unftrained child into a well rounded intelligent and patriotic citizen." Mr. Eckhart said that "character is the result of courage, endurance, self-denial, temperance, truthfulness and justice."

Chorus Gives Fine Selections  
The high school chorus, composed of girls and boys sang "Welcome."

Frank Taylor, president of the school board in a few choice words thanked the people for their attendance at the exercises. He was followed by J. C. Harris member of the school board who spoke of the value of education and the duty of parents to send their children to school.

John Bell, member of the school board made an appeal to the boys and girls to "fight it through." Mayor Davis then spoke of the effort to build up the school and his little trouble with truants which shows that the people are making their children attend the schools regularly.

William Emory rendered a splendid vocal solo. Robert Davis recited "When Washington Was President."

"Our Flag" was a selection by the primary pupils. Willard Armstrong recited "Little Boy's

Oct. 28, 1914—"I had eczema on my face for ten years. Little red pimples, itchy, and in a small spot on my chin and spread all over my face. They itched and burned me awfully. It was a terrible embarrassment to me, and I could not go amongst people. I tried every remedy and treatment, but nothing did me any good. I used Resinol Ointment and Resinol Soap, and was relieved in a day or two. In one month I was cured. This was six years ago and the trouble has never returned." (Signed) Mrs. C. C. Roberts, Westfield, Ohio.

The Resinol treatment specifically heals eczema, rashes, ringworm, and other eruptions, and clears away disfiguring pimples and blackheads, even when other treatments prove worse than useless. Doctors have prescribed Resinol Ointment and Resinol Soap for eight years, and all druggists sell them.

Who Lost  
Watch?

MISS LARKINS  
SET RIGHT

Friends of Miss Charlotte Larkins, the young woman whose name was brought into the Goodpastor hearing, being alleged by a witness before the mayor that he had seen Miss Larkins sitting on Goodpastor's lap, deny most vigorously that there is any foundation for the story. From most reliable sources The Times is assured that Miss Larkins is a young lady of good character and habits, that she always conducts herself in a becoming manner and that grave injustice was done her in the testimony. She has not associated with Goodpastor more than to speak to him as to other acquaintances.

In justice to the young woman and set her right before her friends and the community. The Times makes this statement.

## Had Bronchial Asthma

So Badly Man Could Not Lie Down—Cured By Vinol.

For years and years we have been telling the people of Portsmouth that Vinol is a wonderful remedy for bronchial troubles. Here is positive proof—

Tilden, Ill. "For five years I suffered from bronchial asthma. In the winter time I was obliged to sit in a Morris chair all night, as I could not lie down, owing to that dreadful choking sensation. I tried nearly every known remedy, but nothing gave me any relief until one day I met the Station Agent at Willsville, Ill., and he said he had been a sufferer for years, but had been cured by Vinol. I at once commenced to take it, and the result is my cough is gone, my appetite has improved, and I can lie down and sleep all night, and my experience leads me to believe that Vinol is a certain remedy for bronchial asthma." John H. Condel, Tilden, Ill.

The reason that cough syrups fail in such cases is because they are palliative only, while Vinol removes the cause, being a constitutional remedy in which are combined the healing elements of fresh cod livers, together with tonic iron and beef peptone. It strengthens and revitalizes the entire system and assists nature to expel the disease.

One of the greatest assets of towns of the size Portsmouth is a progressive farm population surrounding it. Portsmouth has a great opportunity to draw trade from a great scope of farm territory, and with the steady improvement of roads, merchants report a corresponding increase in the farm trade.

An interesting statement is made by the agent here regarding the enormous sale that he has had, among the surrounding farmers, and even those at a great distance, of the very famous medicine, Tanlac. Many of the users have told through the columns of the papers of the remarkable benefits that they have received.

"Having practically no appetite, a bad stomach and being all run down in health, I began the Tanlac treatment. The results have been very satisfactory indeed. I am sure that it is all that is claimed for it. My stomach has greatly improved, and it has acted as an excellent tonic."

Bodily vigor, and what we call "nerve", are practically synonymous terms. For the healthy man has a great advantage over his sickly brother in facing a situation that is trying on either the mental or the physical being.

This great remedy that is known as the "Master Medicine" is a product of herbs, roots and flowers, and is compounded by the famous German chemist Triebach.

For those who are continually troubled with sour stomach, who are under weight and debilitated, have kidney, liver and intestinal troubles, catarrh of the mucous membranes and rheumatism, Tanlac is the most effective of medicines.

At the Tanlac Corner in Portsmouth, Sixth and Chillicothe Sts., the Fisher & Streich Pharmacy are the agents for Tanlac, where representatives are explaining it. In New Boston Tanlac is sold by Ernest Colburn, druggist. Adv

Robert N. Tynes, who is now located in the East with headquarters at Boston, as general salesman for the Harbison-Walker Refractories company, is expected home for the Christmas holidays. Mr. Tynes may be transferred back to his old territory in the Middle West as he prefers to work in this section rather than in the East. He has been with the Harbison-Walker company for some years and is considered one of their best salesmen.

Smith, and best known by the nickname of "Florida Kid," became convinced that he had knowledge of the murder. He related a remarkable story of how Baucus after arresting him and two other negroes, known as "Jungle Shine" and "High Yaller," was marching them down through the yards towards Kendall avenue, to take them to the police station, how "High Yaller," who had, after being searched in a caboose, taken his gun from off a shelf and concealed it in his coat.

"Jungle Shine" took the dying officer's gun and the three then separated. They met at Chillicothe and various places later. Smith's confession resulted in the arrest of "Jungle Shine," and the two are still prisoners, being held at the county jail, but "High Yaller" is still at large, despite a country-wide search that has been made for him. A \$499 reward for his capture still stands.

Monday was the first anniversary of the atrocious murder of James A. Baucus, the N. & W. detective and former chief of police of Portsmouth.

It was on a Sunday night, just a year ago, that Mr. Baucus, while rounding up loiterers in the N. & W. yards at East Portsmouth was caught off his guard by one of several men he had under arrest and shot through the head and almost instantly killed. For months the officers engaged on the case were baffled, when finally a negro named

## STEEL COMPANY PLANNING FOR A NEW PLANT

### Want The Evacuation Of Street In Order To Carry Out Idea

The vacation of Ohio avenue, New Boston, where it runs through its plant, will be asked of the New Boston council Monday evening, by officials of the Portsmouth plant of the Whitaker-Glessner Company and upon the granting or refusal of the request will depend the carrying out or abandonment of plans for the extensive enlargement of the local plant.

It is learned that the increase in price of certain products has been so great that they are practically prohibitive, and the Steel Company has decided to install machinery to manufacture substitutes in some cases and the product desired in others. The question has been as to whether this improvement should be made at the Portsmouth plant and the increased work done here, or whether it be done at the Wheeling or the Martins Ferry plants of the company. It has been decided to build the new plant at Portsmouth, provided the necessary vacation of Ohio avenue can be secured.

Ohio avenue now runs through the heart of the steel plant. One half of it has already been vacated by the village and the tracks of the steel company run across it making it a dangerous street at best. It will be necessary to have the new machines to be installed, in close proximity to other machinery, as a matter of economy. Unless the company secures the vacation of Ohio avenue, it will not be possible to do this, it is stated by steel men.

It is further stated that unless

arrangements can be made, the proposed additions will be made to Wheeling or Martins Ferry, probably Wheeling.

The installation, proposed, the enlargement of the plant, will mean steadier work, more work, and more men employed. This will make the meeting of the New Boston council Monday night a most important one, and the council will go on record as to its desires.

New Boston has hitherto been most progressive and liberal with the Steel Company, and it has been strongly sustained by the community in seeking to aid the steel plant to grow and prosper as it all adds to the prosperity of the village and also of Portsmouth. It is understood that Judge A. Z. Blair, representing the request for the vacation of Ohio avenue, and that he will enter fully into explanation of the plans for enlargement, as above outlined.

The steel company is a very large tax payer at New Boston and it has always been willing to aid in every expenditure for improvement.

It is further learned that the steel plant company agrees in return for the surrender of Ohio avenue to open West avenue through from Gallia street to the Ohio river, full width; to pave the street to the top of the river bank; to establish a good landing on the river with an easy grade to it. Arrangements have already been made by which this can be accomplished.

### Man Accused Of Wielding Knife Held To Grand Jury

Testimony of a damaging nature was given against Charles Lowe by Miss Cecelia Carter at his hearing in the mayor's court Monday, where he is charged with cutting with intent to kill Dan Holbrook at a dance.

It was this young woman who produced the knife with which Holbrook is said to have been cut. She said Lowe had handed it to her and asked her to keep it for him. She said she and a Miss Torgersen, of O'Brien street, had gone to the hall. It was their first visit there, and they had scarcely gotten inside when they noticed there was a commotion. She saw an officer leading a man wearing a blue coat. Just then Lowe, she said, handed the knife to her. It was closed. She said she did not know what to do with the knife, so she and her friend promptly left the building and went home. She said she threw the knife into some clay dirt on the roadway that is adjacent to her home on Kendall avenue. It was still there, she said, when an officer came to her Monday morning and asked for the knife. It was muddy and she said she held it under a hydrant and let the water run onto it until it was washed clean. The knife, which is an ordinary pocket variety, though with a rather long blade, was submitted in evidence. Miss Carter said she had worried over the fact that she had been given the knife and was afraid to tell the police, although she said she had made up her mind to do so Monday evening. She is employed at the Excelsior.

Officer Dennis Hurus testified to being in the hall, when suddenly there was a commotion at the other end. He said that he had great difficulty in getting to the men, several persons, among them Walker Isom getting in front and blocking his way. He succeeded in getting the men separated and finding that Holbrook was badly cut he ordered the hall door closed. Several persons pointed out Lowe to him as the knife-wielder. Lowe by this time, he said, had gotten close to the door. Turning the wounded man over to Armour Platt to be taken to a doctor, he himself proceeded to make the arrests.

Lowe was defended at the hearing by Attorney Philip Jacobs. He, himself, felt that the hearing should not be concluded without Holbrook being heard from. The court told him, however, that this was only a preliminary hearing and held Lowe to the grand jury without bail, but upon the plea of Attorney Jacobs, who pointed out that it was customary to permit bail in such cases and that Holbrook's dismissal from the hospital was only a matter of a day or two, the mayor said he would fix Lowe's bond within a few days. Walker Isom and O. E. Taylor, who had been held in connection with the cutting, as alleged accessories, were ordered released.

### FEDERAL GRAND JURY INVESTIGATES ALLEGED PLOTS

San Francisco, Calif., Dec. 6.—The federal grand jury is expected to resume its investigation today into the alleged German dynamite plots to destroy munitions plants in the United States and ships bearing supplies to the entente allies. Interest in the proceedings of the grand jury is heightened by the fact that since their last session an additional list has been made here—that of Baron George Wilhelm Von Brincken, charged with attempting to destroy commerce with the Allies. Von Brincken is out on \$10,000 bail. His arrest took place after it had been held he was not, as he claimed, a military attaché of the German consul general, and hence not immune from arrest.

It is expected that Robert Capelle, agent of the North German Lloyd Steamship company, will be brought before the grand jury, as federal officers said they knew where to lay hands on him when he was wanted. Search for him was begun following testimony in the trial of the grand jury.

### WILSON'S RENOMINATION EXPECTED BY MEMBERS OF NATIONAL COMMITTEE

Washington, D. C., Dec. 6.—The large cash inducements, as well as every convenience, will occupy a neutral position in the contest. The committee also will endorse the works of the administration and of congress and elect a new treasurer to succeed Rollo Wells, of St. Louis, who will resign tomorrow, and a successor to Joseph E. Davis, of Wisconsin, who has resigned as secretary. The election of Thomas J. Pence, of this city, assistant to Chairman McCombs, as secretary, was forecast.

While it is said authoritatively that the committee will not formally indicate its preferences for the Democratic candidate next year, President Wilson's renomination is expected by all the members.

### Berlin Knows Nothing Of Recall Of German Officials

Berlin, Dec. 6.—The newspapers of Berlin have no information that the recall of Captain Karl Boyer and Captain Franz Von Papen, German naval and military attaches at Washington, has been asked. Explanations are still not forthcoming.

### CLENDENING FIGHTS FOR POSITION

Washington, D. C., Dec. 6.—Senator Clendening today heard arguments in the suit of Byron M. Hart of the member petition which Clendening, of Cincinnati, has filed against the committee removed by Governor Wilson for presentation to a committee of his Democratic members of the congress. Clendening federal system state league licensing board, to suppress amendment. The case Clendening script, now of Clendening's office by other men, 24th and 10th, 10000 signatures of the state board. Former Attorney General T. S. Hogan, learned from Washington, Del., counsel for Clendening, argued away, and this city.

### U. S. To Profit From Xmas Money Orders Sent To Europe

New York, Dec. 6.—Postal officials here say the United States government will profit to the extent possibly of several million dollars in the forwarding of Christmas money orders to the people of European nations this year, because of the low rate exchange arising from the war.

It is estimated that \$10,000,000 will be sent from New York City Christmas presents within the next two weeks and that from all parts of the country three and a half times that amount will be transmitted by money orders.

### SETON RESIGNS AS CHIEF OF BOY SCOUTS OPPOSES MILITARISM

New York, Dec. 6.—Ernest Thompson Seton, naturalist and writer of books on nature, today announced his resignation as chief scout of the Boy Scouts of America. In a statement explaining his action Mr. Seton said he resigned because of a gradual change to policies to which he is opposed and for which he blames James E. West, of this city, the present chief scout executive.

"Militarism now comes first and woodcraft, the original purpose of the movement, second," said Mr. Seton, who announced the formation of the Woodcraft League.

### SUFFRAGISTS IN CONVENTION

Washington, D. C., Dec. 6.—The National convention of the Congressional Union for Women Suffrage, met for the first time here today with Women Suffrage workers from throughout the country in attendance. The convention, which will hold daily sessions throughout the week, is meeting in the "Little White House," the historic residence of Madam Fiske, where many vice-presidents have lived. Proceeding the meeting, Women Suffragists, looking for a procession and welcomed Mrs. Sara Paul Fiske, of Oregon, and Miss Frances Jell, of California, who are representatives of the Western Women's Union, held a meeting across the street with a unanimous suffrage petition asking congress for federal suffrage amendment.

### PERMITTED TO ISSUE BONDS

Columbus, O., Dec. 6.—Issue of \$200,000,000 general mortgage bonds by the Baltimore and Ohio railroad was authorized today by the state public utilities commission, although the company's application was filed less than a week ago. Similar approval has been given the railway's financing plans by utilities or railway commissions in other states. The sum of \$200,000,000 is to be used for improvements and \$400,000,000 to redeem notes due June 1, 1917 and June 1, 1918.

### Germans Deny

Washington, D. C., Dec. 6.—Count Von Bernstorff, the German Ambassador, today made an emphatic denial of reports that Germany or German officials, agents had been concerned in recent attempts to set up a counter revolution in Mexico.

### POLITICAL CRISIS IN GREECE

Paris, Dec. 6.—Eliphthreios Venizelos, Ex-Premier of Greece, has issued a manifesto to address in the name of the liberal party to the people of his country advising abstention from voting in the forthcoming general elections. The manifesto was issued November 21, but its transmission by telegraph was prevented by the Greek government and it reached Paris today by mail.

The manifesto calls attention to the fact that the international crisis was brought about solely by the wresting of power from those to whom the people had confided it at the last election.

Day by day, says M. Venizelos, the constitution is formed into a simple scrap of paper and we find ourselves at present in a devaluation from our policies amounting to suppression of the constitutional regime.

Ex-Premier Venizelos points out what he calls the entire absence of necessity or excuse for an appeal to the people for the second time in a few months amid the confusion of war. He declares the chamber of deputies overturned the Greek cabinet for the mere pleasure of exercising its opposition and that it would have accepted the new cabinet with the sole exclusion of the minister who had insulted the chamber and says:

"In spite of the affront intentionally inflicted upon the national representation by the pro-

### BEGIN PROBE OF MINE HORROR

Boomer, W. Va., Dec. 6.—The coroner's inquest into the explosion last Tuesday at the mine of the Boomer Coal and Coke Company, which resulted in the death of 23 men, opened today. More than fifty witnesses will be examined. The hearing will probably be in progress several days. Estimates here place the loss to the state workmen's compensation fund by the accident at \$20,000. This amount includes the cost of burial. Sixteen of the men killed were married and had families.

### JAP BARON VISITS WILSON

Washington, Dec. 6.—President Wilson had on his list of callers today Baron Shibusawa, a prominent Japanese, who is touring this country in the interest of the International Sunday school congress to be held in Tokyo, after the war.

The baron, discussing the movement to restore peace in Europe, declared the warring nations must look principally to the United States to pave the way to that end.

Baron Shibusawa expressed the conviction that Japan would be ready to do its part in maintaining peace in the Orient and that united, Japan and the United States will be able to do much in preventing the recurrence of such disastrous calamities to humanity as the present war.

### TWENTY DAMS WILL BE IN OPERATION

Wheeling, W. Va., Dec. 6.—An announcement has been made in the office of the United States engineer here that all of the twenty dams in the Ohio river from Pittsburgh to Belleville, W. Va., a distance of 201 miles, will be in operation September 1, 1916. It is claimed that this is the longest stretch of continuous slack water in the United States.

## NEW YORK STOCKS

New York, Dec. 6.—Reading lagged during the greater part of today's session, with further professional manipulation of various specialties.

Stocks manifested great strength on the resumption of trading today, specialties being most prominent. General Motors rose 7½ to the new record of 500, later advancing to 525 with a rise of 4¼ for the preferred at 121. Mercantile Marine preferred, Sears, Roebuck, Anaconda, Colorado Fuel, U. S. Rubber and Goodrich were a point or more over last week's final prices. Norfolk and Western was strongest of the rails, gaining 2¼@120½, with minor changes elsewhere in that group. Express shares also showed marked improvement.

Trading broadened after the opening, an unusual variety of securities being embraced in the 200,000 share turn over of the first hour. Copper, Sugar and Motor stocks made greatest gains and Baldwin Locomotive, General Electric and Crucible Steel assumed some of the recent prominence.

Advances in express stocks were materially extended Adams rising 7 to 129 and American 6½ to 120. Investments were more active but another decision of the Interstate Commerce Commission, adverse to the coal roads, caused some restraint in that quarter. United Fruit was weak despite its favorable annual report. Bonds were steady.

Investment shares, were in demand in the final hour with general, though moderate, gains. The closing was strong.

# THE MARKETS

## NEW YORK STOCKS

New York, Dec. 6.—Reading lagged during the greater part of today's session, with further professional manipulation of various specialties.

Stocks manifested great strength on the resumption of trading today, specialties being most prominent. General Motors rose 7½ to the new record of 500, later advancing to 525 with a rise of 4¼ for the preferred at 121. Mercantile Marine preferred, Sears, Roebuck, Anaconda, Colorado Fuel, U. S. Rubber and Goodrich were a point or more over last week's final prices. Norfolk and Western was strongest of the rails, gaining 2¼@120½, with minor changes elsewhere in that group. Express shares also showed marked improvement.

Trading broadened after the opening, an unusual variety of securities being embraced in the 200,000 share turn over of the first hour. Copper, Sugar and Motor stocks made greatest gains and Baldwin Locomotive, General Electric and Crucible Steel assumed some of the recent prominence.

Advances in express stocks were materially extended Adams rising 7 to 129 and American 6½ to 120. Investments were more active but another decision of the Interstate Commerce Commission, adverse to the coal roads, caused some restraint in that quarter. United Fruit was weak despite its favorable annual report. Bonds were steady.

Investment shares, were in demand in the final hour with general, though moderate, gains. The closing was strong.

## CHICAGO GRAIN

## AND PROVISIONS

Chicago, Dec. 6.—Fresh advances today in the price of wheat were met by heavy sales to realize profits. Traders who last week had been the most active in the purchasing took the lead today, on the selling side. The opening ranged from ½ to an advance of 2½, but a setback all around, followed by well below Saturday's finish. Rallies, however, ensued, especially in the May option, first prices were 116 to 118 for December and 116½ to 118½ for May. Later swells in the market lifting prices to above 120 for May were more or less due to big export clearances and to the smallness of the increase of the domestic visible supply. The market showed broad activity and at times jumped half cent between trades. The close was unsettled, 2½ to 3½ higher with Dec. at 119½ and May 118½.

Corn rose on account of predictions of unsettled weather. The down turn in wheat, though, needed to check the bulls. After opening ½ to 1½ higher, the market lost nearly all of the gains.

Subsequently bullish crop estimates gave the market renewed strength. The close was nervous at 1½ to 1½ cent net advance. Oats swayed with other grain. On the whole, prices nevertheless had an upward slant.

Immense receipts of hogs carried down provisions. The arrivals throughout the west totalled more than twice as many as on the corresponding day a year ago. Fair commission house buying developed on the break, and something of a reaction followed.

## FIRED SHOT AT MARSHAL

Marshal W. I. Davis, of New Boston, exchanged shots with John J. Taylor, a shanty-boat man, Sunday morning at ten o'clock, when the riverman failed to heed the officer's demand to come ashore and submit to arrest. Will Taylor used his knife to ferry people to the Kentucky shore from the foot of Ohio avenue. Sunday morning as Taylor was taking several persons across, Joleneur fired a shot at the boat, says Taylor. On returning Taylor fired at the shanty-boat man. He reported to Officer Davis, who started after Joleneur, who was out in a skiff when Marshal Davis hove in sight. Davis asked him to return to the shore, but he only answered with a shot from a Winchester rifle. Davis fired four shots to scare him and then came directly at the boat, and it fell short a few inches. Joleneur continued onto the Kentucky shore. Officers watched the boat all day and half the night, but Joleneur failed to return. Davis has a warrant for his arrest, the charge being shooting with intent to kill.

## GOODPASTER MATTER TAKEN UP AT MEETING

At the monthly meeting of the health board held Monday afternoon Dr. W. W. Smith asked the board to uphold him in a report he submitted in the Goodpaster milk bottle case. Mr. Goodpaster will be asked to put in a sanitary toilet at his place of business, Twelfth and Waller streets. Bills amounting to \$390.26 were allowed by the board.

## BARTENDERS NOMINATE

Lon Hender and Henry Lowler, who nominated for president and vice-president, respectively, by the Bartenders' Union Sunday afternoon.

Other nominations made were the following: John Staiger, treasurer; George Schaefer, financial secretary and business agent; Ed Sautter, recording secretary; J. J. Ward and Al Duty, inspectors; Ed Shields, Charles E. Wood, Chas. E. Kirsch, Wm. G. Reasor and Joe Beckett, trustees; David Reel, chaplain. The election and installation will be held December 18th and will be followed with an elaborate banquet.

## Want Road Repaired

Messrs. W. M. Wichte and Frank L. Bair, of Harrison township, appeared before the county commissioners this morning to ask for the improvement of the Turk Ridge road, which, they claim, is badly in need of repair. They were assured that the matter would receive prompt attention.

## Class Going After Record

The Men's Fellowship class of the Second Presbyterian church held an unusually good service Sunday morning with a number of new members in attendance. From noon on the class intends to keep the public well informed with its records. Attorney B. E. Kimble is teacher of the class.

## Get Rid Of "Katie"

William Diltz and wife, Grace Diltz, were before the mayor Monday afternoon on an affidavit signed by Chief B. E. Allen, charging them with keeping a house of prostitution.

The charges were not pressed when after a conference between them, their counsel, Attorney B. E. Kimble, and the mayor, the couple agreed to get rid of and keep away from Katie Queen, whom they were accused of harboring at their home on Eleventh street. A girl named Purtee, who was also at the home, skipped out.

## GETS SALOON LICENSE

John Emmert, formerly of New Boston, has been granted a license to open a saloon in the property at Fourteenth and Winday streets, formerly occupied by Walter Coriel, who voluntarily retired from the saloon business recently. Emmert expects to open up for business within the next few days.

## Two Deals Are Made

Two real estate deals were closed Monday by H. A. Bierley. He sold Joseph Hawkesley's place on the west side to James Spence of Carey's Run.

Mr. Bierley also sold Mrs. Kemper Price's seven room home on Mount street to William Hazlebeck of the Royal Savings and Loan company.

## Some Observations

By Homer Hoover

Counterfeit kindness is better than unkindness at all. Needn't remind folk to begin their Xmas worrying early. They will anyway. Don't you care one bit if some one does call you a failure—that is, if you've tried. We sometimes doubt whether carols and songs are as effective as a furnace fire in driving the cold weather away. Give us a book in a nook, and a book that's a real cook, and we will frown at aches and ills as long as there are no bills. "I believe in gittin' as much good outen life as you kin," said Mrs. Higgs. But she didn't believe in getting it at another's expense. Naturally. "Where have you been?" "To the cemetery." "Any one dead?" "Sure. Every one of them."—Exchange.

## Mr. Davidson Hurt

M. N. Davidson, 52, N. & W. freight conductor on first 85, was injured at Williamson, W. Va., Saturday. Davidson attempted to swing onto the caboose of the train which was making 15 miles an hour. He had hold of one hand bar when his foot slipped from the step. His right arm was badly bruised when he was swung against the edge of the caboose. The company physician at Williamson attended him.

## NEW BOSTON CHOIR TO SING

J. Bedford Edwards, "Young Eddy", will have his choir of young people at the special bible institute meetings being held this week at Grandview Christian church. This choir consists of about fifty young men and women under the leadership of the above and they have decided to make Tuesday evening the date for their visit. All the new gospel songs are their specialty and this choir of young people is worth going a long way to hear. It is expected that a big crowd will be out to greet them. New Boston will probably come along in strong force as the people of the village are mighty proud of their home talent.

## GRANDVIEW AVE. CHURCH NOTES

The Union meeting for men at Seiotville on Sunday afternoon was well attended and gave every satisfaction to the promoters. Harry Edwards of New Boston was the speaker and taking Daniel, the Prophet for his subject, he spoke for over an hour to a very appreciative and representative gathering of men. It is the wish of many of those in attendance yesterday that these meetings be arranged for every Sunday at least, during the winter months. Rev. Willis of the Baptist church and Rev. Bryant of the Christian church took part in yesterday's meeting and members of the three churches will call a meeting in the near future to try and arrange for more of them to be held alternately in the three churches.

## Rev. Chandler Raps Gossipers In General

"In some instances people who term 'eight little devils', such as back-biting, mud slinging, aspersions, slander, etc. Rev. Chandler also took a gentle-rap at the newspapers of the day. He stated that the reading public in many communities demanded all the gossip, and that newspapers in such localities could not exist were they to refrain from publishing the same. The people, he said, in many places wanted to see the 'nasty things' played up in bold type and were never satisfied unless the front page carried in bold type some of the gossip of the community. "That is admittedly true of many communities," said Rev. Chandler, "and it is to the lasting shame of such a place."

## Mr. Staebler Gets Expert

John Harrows, an experienced jeweler, who for the past several years has made his home in this city, has taken a permanent position with E. J. Staebler, who a few weeks ago opened his up-to-date jewelry store at 829 Gallia street. Mr. Staebler is to be congratulated upon having secured the services of such an expert mechanic as Mr. Harrows has proven himself.

## HEADQUARTERS OF SUFFRAGISTS IN CHARGE OF VOTER

Mrs. Esther G. Nielson.

The National American Woman Suffrage Association has put a full-fledged "woman voter" in charge of the joint headquarters which have been established in advance of the annual convention of the association, which takes place at the national capital December 14 to 18. She is Mrs. Esther G. Nielson of Denver, Colorado.

## HIGH BIDDERS ON BONDS

Field Richards and Company, of Cincinnati, were high bidders on the \$2,000 New Boston street extension bonds, bids being opened at noon Monday by Clerk Thomas D. O'Neal. The formal award of the bids will be made tonight at the regular meeting of council. Field Richards and Company's bid was \$42 premium. Other bids were J. C. Mayer and Company, Cincinnati, \$31.50; Staeg and Braun, Toledo, \$31.50; Central National Bank, Portsmouth, \$5; Portsmouth Banking Company, par and accrued interest.

## WITH THE SICK

George Small, who has been ill many weeks at his home on Sixth street, continues about the same, there being no perceptible change in his condition.

Winchester Shaw is ill with pneumonia fever at his home in Carey's Run.

Miss Emma Bentine, Seiotville telephone operator, has resumed her work after an extended illness. Miss Clara Bracken, who worked in Miss Bentine's place, has returned to her duties at the city building.

## CONGRESS

(Continued From Page 1.)  
turning old timers from holding  
receptions. Former Speaker  
Cannon, Representatives Hill,  
Longworth and McKinley and  
others as well as the leaders of  
both parties, were centers of  
groups of the latest arrivals.  
The vote on the speakership  
was 221 to 194 with six members  
voting "Present." The roll call  
at the opening of the house had  
shown an attendance of 427, but  
only 421 votes were cast on the  
speakership. Four progressive  
and Representative London, of  
New York, the lone Socialist,  
voted present. The two other  
progressives Copley, of Illinois,  
and Stephens, of California, voted  
for Representative Mann, Repub-  
lican.

Washington, D. C., Dec. 6.—The  
opening of the sixty-fourth congress  
today drew thousands of persons to  
the Capitol.

The day began with overcast  
skies and sharp, cold winds, but this  
did not dampen the enthusiasm  
of the crowds. Hundreds began gar-  
bering at the historic building early,  
and long before noon, the hour set  
for the fall of the gavel in the  
house and senate, signaling the  
opening of the congress, the galleries  
had filled to overflowing.

Outside were hundreds waiting  
in the hope of getting much coveted  
seats. Many of them were doomed  
to disappointment, however, as those  
who had not already obtained tick-  
ets stood little chance of being ad-  
mitted. Seats had been reserved  
for the president's official family,  
the diplomatic corps and members  
of the families and their friends.

Many visitors, including noted  
suffrage advocates, had been drawn  
to the Capitol to witness the offer-  
ing by Representative Mondell, of  
Wyoming, of the Susan B. Anthony  
constitutional amendment for equal  
suffrage as the first request of the  
new congress.

Washington, D. C., Dec. 6.—  
Senator Hoke Smith, Democrat  
of Georgia, today gave notice he  
would introduce a resolution to  
have the foreign relations com-  
mittee investigate interference  
with American commerce by Great  
Britain. The committee will be  
asked to suggest to the senate  
the action, if any, it may deem ad-  
visable.

Washington, D. C., Dec. 6.—Sen-  
ate Republicans met in caucus to-  
day with assurances of a united  
minority for the first time since  
organization of the progressive  
party. Senator Pendergast, of  
Washington, attended the con-  
ference and joined in its or-  
ganization for some time he  
himself as a progressive and did  
not participate in Republican de-  
liberations.

Senator Gallinger, of New  
Hampshire, was re-elected chair-  
man of the conference, and four  
leader, and was authorized to  
name a committee on committees.  
He also was made the Republican  
nominee for president pro tem-  
pore.

Senator Wadsworth, of New  
York, was elected secretary of  
the conference.

## BILL IS

(Continued From Page 1.)  
Another petition, however, con-  
tained several thousand names of  
voters in non-suffrage states, was  
presented to Representative Mond-  
ell on the east steps of the capitol,  
and the original will be given  
him if it is found. It disappeared  
somewhere between her and Wil-  
lington, Del., from which city it

was shipped by express.  
Hundreds of suffragists march-  
ed to the outskirts of the capitol  
early today to meet Mrs. Field  
and Miss Jolliffe (who had come  
from San Francisco by automo-  
bile) to present the petition.  
Shortly before noon the procession  
to the capitol began. More  
than 1,000 women were in line.  
A cavalry division of twelve  
women dressed in suffrage colors,  
and carrying the Susan B. An-  
thony banner proclaimed:  
"We demand the passage of  
the Susan B. Anthony amend-  
ment," came first.

About a hundred congressmen  
stood with Representative Mond-  
ell when he received the peti-  
tion.

"Under free government," he  
declared in his address from the  
steps, "there can be no more im-  
portant question than one involv-  
ing the suffrage right of half the  
people."

All the marchers later fent to  
the White House where President  
Wilson received the 300 visiting  
suffrage leaders.

Miss Anne Martin, of Nevada,  
speaking for them congratulated  
the president on his stand for suf-  
frage. Since he could not speak  
for his party on the question, she  
pointed out, he might speak to it,  
and she asked him to do that.

## FIVE MORE BILLS ARE RETURNED

New York, Dec. 6.—Five addi-  
tional indictments were returned  
today against Robert Fay, Walter  
Scholz, Max Breitung, Dr. Her-  
bert Kienzie, Engelbert Brank-  
horst and Paul Dancie. All were  
charged with conspiracy to com-  
mit murder, to commit assault  
with deadly weapons, and to de-  
stroy property. The previous in-  
dictments against them merely  
charged them with attempting to  
destroy ships.

## MORE WILL JOIN FORO PARTY

New York, Dec. 6.—There are  
179 members in the Ford Peace  
party now enroute to Norway on  
the steamship Oscar II, accord-  
ing to announcements made to-  
day by the line owning the vessel.  
The names of the 179 have not  
yet been received here. The line  
also announced the reservations  
have been made on the Frederik  
VIII, which sails late this week,  
for twenty-five persons who in-  
tend to join the Ford party in  
Norway.

## OBITUARY

**Mrs. Ulysses Chandler**  
Mrs. Ulysses Chandler, born  
March 14, 1891, in Lawrence  
county, Ky., died Thursday, De-  
cember 2, 1915, at 4 p. m., at her  
home on Candy Run, tuberculosis  
causing death.

The deceased was before mar-  
riage Jessie White, and was  
raised in Lawrence county, Ky.  
She was united in marriage eight  
years ago in Kentucky to Mr.  
Ulysses Chandler. To this union  
were born three children: Hazel,  
7, Carl J., and Ruth 15 months,  
who with the husband survive.

The deceased was well known  
in the vicinity of Lucasville. She  
was a member of the United Ba-  
ptist church of Candy Run and was  
always known as a hard worker,  
a kind and loving wife. The fam-  
ily lived on Candy Run for five  
years. Mr. Chandler is a farmer.  
The funeral was held Saturday  
afternoon at one o'clock from the  
house with Rev. A. C. Murray, of  
Blue Run, in charge. Interment  
was made in Glendale cemetery.

**Mildred Bush**  
Grim Death has again stalked  
abroad and claimed for its victim  
Mildred, the four-year-old baby girl  
of Mr. and Mrs. H. T. Bush, of Sci-  
otoville. She was taken sick Sunday  
morning with croup and lived until  
Tuesday afternoon, November 30th,  
when God claimed her for His own.  
The parents and family have lost a  
treasure, for Mildred was a bright,  
sweet child, but Jesus needed her  
more than they and He took her  
unto Himself. There she is a bright  
shining light to beckon her father,  
and mother, sisters and brothers on,  
and they shall behold her some day.  
She leaves her father, mother, three  
brothers and two sisters. They have  
the most sincere sympathy of all  
their many friends and relatives.  
A FRIEND.

**Mrs. Roy C. Kellogg**  
Mrs. Roy C. Kellogg died at her  
home near Haverhill, November  
24, after an illness of nearly two  
months with quinsy and complica-  
tions. The funeral took place  
Thanksgiving Day at the Ohio  
Baptist church of which Mrs. Kel-  
logg had been a member, since  
girlhood. Rev. T. F. Carey, of  
Russell, Ky., who had married  
Mr. and Mrs. Kellogg conducted  
the services.

Ivy Dell Davison was born  
July 8, 1885, the daughter of  
Thomas B. and Callie (Langdon)  
Davison, died Nov. 24, 1915, aged  
30 years, 4 months and 16 days.  
She was married to Roy C. Kel-  
logg, March 6, 1907, and to their  
union were born four children:  
Roy Curtis, aged 7, Gay Nellie 5,  
Charles McDougal 3 and Callie  
Fern 2, who with the husband are  
left to mourn the loss of a devoted  
mother, a loving and beloved wife  
and an ideal housekeeper. The  
father and mother also survive  
and the following sisters and  
brothers, Mrs. Will McCall of Haver-  
hill, Mrs. Ben E. Winters, of  
Randall, Ill., Mrs. Everett Wil-  
kerson of Portsmouth and Lucien  
at home. To these sorrowing ones  
and to a large circle of friends  
and relatives is left the priceless  
memory of a beautiful life lived  
nobly, cheerfully and unselfishly.  
The husband will treasure the  
memory of almost nine years of  
blessed companionship with one  
whose every thought was to make  
home, husband and children a  
little better and happier. To  
those who knew and loved her  
as a merry, lovable girl and a  
sweet and noble woman the heart-  
ache and heartbreak of their  
great loss is made endurable by  
the thought of that home to  
which she is gone and where she

will welcome her dear ones.

**Eber Hyde**  
Jesse Johnson, prominent farmer  
on the Scoto Trail, received a  
message Monday telling him of  
the death of his brother-in-law,  
Eber Hyde, a retired druggist,  
of Lancaster, which occurred Sun-  
day afternoon from an attack of  
heart failure. Mr. Hyde was one  
of the most prominent citizens of  
Lancaster, where he conducted  
a drug store for several years.  
Mr. Johnson and his sister,  
Minerva Johnson, will leave early  
Tuesday morning for Lancaster  
to attend the funeral which will  
be held Tuesday afternoon.

**Twins Are Dead**  
The twin sons of Mr. and Mrs.  
Mike Mancha, of Green Town-  
ship, of near Haverhill, died Mon-  
day morning. They were four  
days old.

The funeral will be held Tues-  
day morning from the Lutheran  
church at Powellsville, with in-  
terment in the church cemetery.

THE GREATEST GENIUS OF EMOTIONAL DRAMA THE WORLD HAS EVER SEEN IN

# THE RAVEN

ESSANAY'S ARTISTIC DRAMATIC TRIUMPH IN SIX WONDERFUL PARTS

No tragedy so sears the soul of man as the loss of the woman he loves, Edgar Allen Poe in the death of his wife drained to the lees, the cup of sorrow.

This great drama carries out the spirit of Poe's poem, and is the romance of his life based on Hazleton's well known novel and play. Mr. Walthall is the living image of Poe, and gives to the world as no other man could, a realization of the love, song, hope, happi-  
ness, desolation and despair that entered into the life of our immortal poet. Think of see-

## Learning Authorship

A Young Girl Takes a Lesson  
With an Unexpected  
Result

By MARTHA V. MONROE

Louise Brewster's father died when she was seventeen years old, and her mother had then been dead some years. Louise was left with a com-  
petence which needed taking care of as well as herself. Her father had appointed Harold Vandever to administer her estate during her minority, and Har-  
old's mother was to have the care of the young lady herself, she taking up her residence in the Vandever home.

Harold Vandever had been a chum of Mr. Brewster, though he was ten years younger than Brewster. When Louise went to live with his mother he was between thirty-five and forty. He was a literary man and made his liv-  
ing by writing fiction. He was a digni-  
fied man, methodical and, when com-  
posing, unapproachable. When not at work he was quite genial.

Vandever looked upon Louise much as he would have regarded a niece. She was to him a child and to be treated as a child. Neither she nor any one else was permitted to enter his study when he was at work, and when he had finished his daily labor, about 5 o'clock in the afternoon, he usually went out for recreation; con-  
sequently Louise saw very little of him except at dinner.

Such was the routine of the Van-  
devers and Louise Brewster. Mrs. Vandever was occupied with the care of the house and Louise's require-  
ments. Their son was absorbed in his literary work, while Louise—well, Lou-  
ise's mind should have been upon her studies.

But, as has been mentioned, Louise was at an age when girls, to say noth-  
ing of boys, must needs poke into every cranny with a view to discover-  
ing what is there. No one has ever yet

watching a train pull out of the Silver Grove yards when a cut of cars struck them and snuffed out their lives. King and Herrmann's run extended from Russell to Silver Grove and they were well known in railroad circles. King resided in Russell.

"Quite right," Mr. Vandever was a little taken aback by the interrup-  
tion.  
"No, I was not aware of all this of anything else concerning the art of writing. If I had been I should not have come to you for instruction. I am profoundly ignorant of the mat-  
ter."  
Mr. Vandever was turned from get-  
ting material for his quivering scene to a problem. How could one be taught to write? Beyond the proper use of language he saw nothing to teach. If there were words there not be schools for the purpose?  
"The only way I know of to learn to write," he said, "is to write."  
"I'll try."  
"Suppose you start by writing a sto-  
ry. First you must get your mind, then locate the story. Begin to write on the germ of a plan and the germ will increase and multiply. After you have finished out all that is super-  
fluous."  
"I've thought of a motif already. A girl of my age is in love."  
"You mean a girl several years older than you is in love."  
"Didn't I tell you I am eighteen to-  
day?"  
"So you did. Well, with whom is this girl in love?"  
"With a man in love with himself."  
"That's not a bad theme," said the author, all the while more and more surprised at his own sudden develop-  
ment, "but it has its difficulties. You must show the fellow to be con-  
vinced by what he does and says, an attractive contrast between his pom-  
posity and the girl's real simple-  
mindedness."  
"But the man is very learned, and the girl knows nothing. She is not bright, either."  
"I thought you said the man was in love with himself."  
"I meant he was absorbed in him-  
self."  
"Oh, that makes a great difference! In that case I would invent some sort by which the girl by her heroism or devotion attracts his attention from himself to her and, seeing her superi-  
ority, is convinced of his own unworthi-  
ness."  
"But he is greatly her superior."  
"Perhaps you meant that he was ab-  
sorbed in his work—not in himself."  
"Of course I did."  
"This involves another change. A girl is in love with a man whose mind is so absorbed in some great pur-  
pose that he does not notice her. Invent some way by which she may befriend him or save him from a great calam-  
ity. Then wind up your story with an effective scene between the man and the girl who has been devoted to him."  
"But the girl wouldn't be capable of a heroic act, she isn't brave. She could feel proud and happy to have the hero love her, but wouldn't be competent to do anything to make him love her."  
"Mr. Vandever looked a bit discour-  
aged. He knew how to construct a story, but telling some one else how to do it was another matter.  
"Have you any real persons in view for your hero and heroine?" he asked.  
"Yes."  
"In that case you have an advantage in real persons for models, but you must not hesitate to make them fit your literary purpose; otherwise you will get no story."  
"Won't the girl's love for the man count for a good deal?"  
"Mr. Vandever was puzzled how to explain that her love must be expressed, that there were various ways of bringing it out, and doing so was dependent upon the skill of the writer.  
"It seems to me," he said thought-  
fully, "that you are attempting a theme that is very difficult. A heroine absorbed in a noble purpose is loved by a simple girl not especially bril-  
liant."  
"She is stupid!"  
"You can't manage these two as they are. You must make some change in one or the other. I've been studying the art for years and I couldn't make a story out of a stupid girl in love with a man engrossed in a noble purpose."  
"You might make him treat her with some consideration, couldn't you?"  
"Now, there was nothing in the words to make Mr. Vandever start. Louise bit her lip at having said them, for she found herself unable to speak them without a slight tremor in her voice. The author started because this story she was trying to teach the girl to write was suddenly made to appear very near home. Louise turned to leave the study. He arose from his chair, stepped forward and placed himself be-  
tween her and the door.  
"Louise," he said, "I fear I have not realized that a girl of eighteen is not a child."  
She put her hand on the doorknob to turn it. He stopped her by placing his own hand on the knob. But there was not room for the two hands, and his rested on hers.  
"I will not let you go," he said, "ill this matter is cleared up. You have intended to show me in an indirect way that you are not satisfied with my treatment of you; that I have looked upon you as a child, while you should have the consideration of a woman. Forgive me. I will amend my ways."  
What there was to make the girl cry a story writer, who has long studied feminine emotions, would perhaps find it difficult to analyze. Vandever didn't try to analyze the cause. An author may sit at his writing table sucking the end of his pen handle trying to con-  
jure some light touch to explain why his heroine weeps, but put that same author in the place of his hero, beside the weeping heroine, and he will do just what the hero did—he will draw her head down on his breast, and the rest of it. At any rate, this was what Vandever did, and that's the end of the story.

## POSSUMDINNER FOR FIREMEN

Local fire department members were entertained to an opossum dinner Sunday at Irouton by Com-  
pany No. 3 of that city. The lo-

cal members present were Captain W. T. Roberts, Captain J. E. Win-

man and Thomas Jefferson of  
Illipon company, Mayor Hanes  
and Fred Freck, president of  
council made short talks. Quizz-  
Holden an Irouton ex-fireman and  
Captain W. M. Willis, John Mich-  
hauser and Charles Allen of com-  
pany No. 3 Irouton were also present.

# ELOQUENT TRIBUTES ARE PAID TO THE DEAD

## BEAUTIFUL WORD PICTURES GIVEN AT ELKS ANNUAL "SORROW LODGE"

Portsmouth Elks paused for two hours Sunday afternoon to pay their annual tribute of love and memory to the brothers of Portsmouth Lodge who have passed out of this life into an eternal existence.

In holding the annual lodge of Sorrow, they were joined by a large group of friends of the deceased members who came to add their silent approval to the tender sentiments expressed in the eulogies to the dead.

It was the first memorial service held in the large auditorium of the new Elks home in the Play House building, which was taxed to its capacity by the large throng.

The hall was artistically decorated with palms, cut flowers, and the national and lodge colors. Members of the order were seated on the wall seats extending completely around the hall, with the officers in their respective stations. Visitors and friends of the members occupied temporary seats placed in every available space throughout the hall. Many stood in the rear and in the adjoining rooms throughout the entire service.

The exercises were probably the most beautifully impressive ever held by the Order of Elks in this city. The solemn ritualistic service of the order was exemplified by Exalted Ruler Stanley McCall and the subordinate officers of the lodge in a manner that left nothing to be supplied. The roll call of the dead was called, and the entire lodge bowed its head in grief as the walls echoed no response.

Mastery eulogies on the lives of the three members who have answered the final summons during the past year, W. Hayden Bush, Harry S. Grimes and George M. Appel, were delivered by George B. Taylor, Vallee Harold, and Rev. J. W. Dunning, respectively, the speaker in each instance being a close friend and associate of the man whose virtues he recalled in loving sentiments.

Excellent Musical Program Rendered

Interpersed throughout the exercises was a musical program that could not be excelled in this city. Blessed with unusual musical talent, three pretensions instrumental selections were furnished by the Czechoslovak Trio, composed of Mrs. Albert Wilcox and Miss Alice Blake, violinists, and Mrs. George A. Kah, piano. Two quartette numbers were sung by the quartette from the First Presbyterian church, composed of Norma Hark Young, soprano, Mrs. Charles L. Sterch, alto, Fred Lorey, tenor, and Wilcox, H. Schwartz, bass.

Of special merit were the solo numbers of M. C. DeBruin, of Winchester, and Norma Hark Young, of this city. The musical program was of a beautiful, appropriate for the occasion, and was as impressive as it was beautiful. Mrs. S. R. Crawford played the piano accompaniment for the vocal numbers in the program.

The program in full was as follows:

Music "Asa's Death"..... George Czechoslovak Trio—Mrs. Albert Wilcox, Miss Alice Blake, Mrs. George A. Kah.

Exercises—Exalted Ruler Stanley McCall, Exalted Ruler George B. Taylor, Vallee Harold, George A. Kah, Light—Mrs. Alice Jacobs—Mrs. Norma Hark Young, Mrs. Charles L. Sterch, Fred Lorey and William H. Schwartz.

### Eulogy.

### Details Faithfully Looked After By Committee

The committee in charge of the exercises was composed of John Jones, William J. Bruch, William S. Pixley and William H. Schwartz and they are deserving of commendation for their efforts to insure a fitting observance of the occasion.

Since the Portsmouth Lodge of Elks was founded in 1890, thirty-four members have been claimed by death. Their names with the years of their affiliation with the lodge and their death, follow: Watkins, Kearns, 1893-1893; Philip G. Lowery, 1890-1893; J. Oscar Stanton, 1890-1893; Will Stock, 1894-1894; William E. Varner, 1890-1896; Jesse S. Bush, 1893-1896; James M. Dawson, 1890-1898; William A. McFarlin, 1890-1899; Lewis W. The memorial services this year were unusually significant, owing to the prominence of the three members who were added to the list of the honored dead during the past year. All three were men of commanding influence in the community, and their loss was one that was shared by the entire city, which was bowed in grief when they were taken away.

The Times is fortunate in being able to present to its readers the eulogies on their lives, which were delivered Sunday afternoon at the memorial service.

Mr. W. Hayden Bush

The following eulogy on the life of W. Hayden Bush was delivered by his warm personal friend and close business associate, G. F. Purley, trainmaster of the N. & W. Railway Company:

"Mr. Exalted Ruler, Members of Portsmouth Lodge of Elks, and friends:

"W. Hayden Bush, was, as I am, a railroad man. The lives of most railroad men, by reason of circumstances, are nomadic. Few of us are permitted to dwell long in one place, and haven't the opportunity to form those permanent and life-long friendships, characteristic of men who live in one community a lifetime. We have our friendships, but they are widely scattered.

"Most of the N. & W. men have to live in many places. Any big railroad system or organization is dependent on every integral part of that organization for its success. As a chain is no stronger than its weakest link, neither is a railroad organization stronger than its weakest employee. Most of the positions are obscure; only the high officials come into prominence. It is not an easy task to occupy a subordinate position and render such service as is necessary for the company to attain success.

"W. Hayden Bush was one of the rank and file of the great N. & W. railroad system, and he rendered great service to that organization. His career shows that he measured up to the requirements of a true and faithful employee.

"W. Hayden Bush was born in Bedford county, Virginia, and lived there the greater part of his life. I first formed his acquaintance in 1903, at Williamson, Va., but I did not know him as well there as I did after-ward, as one of us left soon after the other.

"In 1906, he was called to a higher post in this city, claiming a position that called for great qualifications. He continued in that position until 1907, about the time that the N. & W. started its big project of double-tracking

the line from the Ohio river to Columbus. His signal ability was soon recognized by the company, and he was placed in the position of general foreman of construction. He did his work well, and earned the confidence and esteem of his employers.

"His next position was as general yard foreman of the Pocahontas division, where unusual ability was necessary to handle the work that devolved upon him.

"I next saw him during the disastrous 1913 flood, during which the N. & W. railway company suffered the greatest loss in its history. At that time, men of exceptional ability were needed, and Mr. Bush was one of the men drafted from the other divisions to assist in the work of cleaning up the debris and making the necessary repairs so that traffic could be resumed. Mr. Bush made his appearance at Waverly, where he rendered a great service for the company. I never saw a man who had greater energy, aggressiveness and ability than he showed at that trying time, which, with that of others, enabled the company to resume traffic within a few days after the waters had receded.

"After the flood, he returned to his old position on the Pocahontas division, where he remained until his final illness.

"He had the unbounded confidence of the N. & W. officials and the unbounded respect and esteem of the men with whom he was closely associated. Some idea of how he was regarded by the men with whom he was most intimately associated can be had from a letter which I received from L. C. Ayres, superintendent of Bluefield, W. Va., a part of which reads as follows:

"Bush was a good fellow, which can be said without fear of contradiction; nice and kind to every one, especially so to the old and infirm; always ready to confer a favor upon any one. In fact, I believe he would have taken off his coat and offered it in case of need, regardless of the social standing of the man who was in such need.

"He worshiped his wife and family. He was an able railroad man, competent in most all of the departments.

"I was associated with him in one way or another for several years, about three of which he was working directly for me, and I do not recall that I ever saw him out of humor. His pleasing personality made for him friends wherever he was and I doubt if he had any real enemies. He was loyal, faithful, hard working, and aside from his family, his work was uppermost in his thoughts.

"The man worth while is the man who can smile.

"When everything goes dead wrong.

"Such a man was Hayden Bush. There are vexatious problems in railroad as in all other lines of endeavor, but he met them without losing his rare good humor."

"Mr. Bush, in 1907, was married to one of Portsmouth's fairest daughters. To this union was born four children.

"He was an exceedingly liberal man, and his consideration for others was unbounded.

"To say he had no faults would be placing him above the pale of humanity. It would not be an eulogy if it would be like worshiping a deity. But his faults were far outweighed by his many virtues. I can think of no more beautiful sentiment than the Elks' motto:

"The faults of our brothers we write upon the sands.

"Their virtues on tablets of love and memory."

Mr. Harry S. Grimes

Eloquent and intensely appropriate was the eulogy in memory of the late Harry S. Grimes, a charter member of Portsmouth Lodge, delivered by his close personal friend, Vallee Harold, which is printed in full below:

"The faults of our brothers we write upon the sands, their virtues upon the tablets of love and memory."

This precept about which hinge all the beneficent professions of this great order, is the most vital, the most potent, in practice, of all teachings to promote the peace and sweetness of living.

To many of us has come, to all of us shall come the pregnancy of its meaning. When we come home after one dear to us is laid to rest we speak softly, lovingly of the sweetness and kindness of the dear one, not of the shortcomings of the moment that vexed and ruffled us, oh, so unnecessarily and extremely as we see now. If we carried the blessed spirit, the holy inspiration of that halcyon hour into daily conduct, if we thought and gave tongue to the perfection of our friends, half as glibly as we recount and retail their imperfections, how smoothly, how joyous would be

the story of existence.

"The faults of our friends we write, not will write, upon the sands their virtues we write, not will write upon the tablets of love and memory. The gracious gain comes and the working upon the sand disappear and are forgot, but love is enduring, memory is vivifying, the eternal process of resurrection.

"Right interpretation then as if I walk abroad at night alone, for the sun and moon has lain down to rest. I gaze into the heavens and only one star gleams faithfully, then another brilliant forth and blazes forth the mystic milkway, which is but the combined glory of untold millions and myriads of stars and planets scintillating through the limitless measure of space. So it is that his frailties may monetarily enshroud and seem unfair the friend, but study his gifts—device upon his graces, prattlings not your own weakness in the gossip of his faultings and you yourself will lie down to rest in a serenity of spirit that will trouble not your sleep, with fitful dreams and you will awake on the morrow in blessed purpose to emulate him in worthiness.

"In this spirit it is that we come not here to mourn, but in kindly appreciation to glimpse the nobler qualities of those of us who in the present year have not answered to roll call and by recalling these find inspiration and courage to higher purpose and a living that will be more helpful to ourselves and more gracious and pleasant to those whom we meet and pass in life's eddying and chanceful currents.

"And thus comes to me the not the unenvailed commission to speak of Harry S. Grimes, for he was my friend so familiar that I foolishly called him partner. Of him what shall I say in tribute to which of his various virtues shall I lay stress? You, the members of this order, know how deep was his interest therein, how he ever gave it ungrudgingly his counsel and aid. You see his hand some presence and hear his buoyant, hearty greeting to those of age and those of youth. But I admired him most because he was first and foremost an optimist—not a dreamer of dreams, but a doer of deeds. Hope in him was not a longing, but the courage and call of action. What should he be felt he knew, could be. What I loved in him was that his real character and quality shown most lustriously in his home and in his secret benefactions. Home is where man sets his best, talents and imaginings to bring comfort, beauty and happiness; home is the safe-guarding of all that is sweetest and dearest out of home come order, peace and protection; home develops the best there is in humanity and clusters under its roof all that is most sacred and makes for the integrity of the family, the security of society and the perpetuity of the nation. In him Harry S. Grimes developed wondrous tenderness and gentility to those of his circle and a hospitality to the favored guest that was as genial as it was ever generous.

For hours of days and days that stretched into weeks have I sat by his invalided bedside and talked with him as only those who commune who are alone a thots and miles from home and have their ears attuned to catch the whispers half expected from forms invisible, and yet never once did he drop hint of the numerous deeds of bounty and mercy he had wrought, as I had learned from other sources and knowledge that came incidentally from years of association. But think you I could pay him finer homage than this. Yet, would it not be altogether proper to pass by with some reference to him as a citizen and an influence in this community. He was forceful, he was aggressive, he was a born leader of men. May be there were these—and let us hope they too wrote his faults upon the sands—for he was human who thought him at times given to masterfulness. But remember the trumpet of his spirit called to action—he hated delay and pattering. With him the time to do a thing was the now. It was this dominant note in his nature that led his fellows so often to call him to the roll and to leadership, when big enterprises were to be undertaken. And it was because he was fit to lead, was always found where he was of right and might be that Portsmouth owes him most. His pride and faith in the town was sublime, inspiring—a passion only less than his love for home.

"His own affairs were large and exacting, but he was never so pressed, nor hurried by personal undertakings that he could not find time to give to the service of the city, the promotion of the interests and progress of the community, and at this I have unraveled much. In this connection let me reveal to you a fact, perhaps, not generally known, that had it not been for his superior power of influencing men, his keenness of insight and his devotion to the town, it would today be without one of its biggest and best industries, the steel mills, all his wonderful charities, the old plant on the site on never let his left hand know what the right hand did. After the was about to be sold for junk and wrecked, and of course, that one day fifty-five-dollar bills in would have meant extinction for all time. Learning of this he conceived a plan by which the mills could be operated and so attractively did he present it, that it was accepted by the prospective buyers with a splendid outcome, in which all citizens take a just pride. The columns of smoke that ascend from its chimneys of day and the fires that illumine the night are a monument to the memory of the most loyal, the most zealous, the most effective citizen Portsmouth ever had.

Mr. George M. Appel

Rev. John Wirt Dunning, pastor of the First Presbyterian church, eulogized the life and earthly works of his close friend and advisor, George M. Appel, in the following beautiful tribute:

When the great Teacher appeared upon the hills of Palestine more than nineteen centuries ago, men said of him: "Never man spoke like this man." The people heard him gladly, and they all wondered at the gracious words that proceeded out of his mouth."

His teaching was new, during, startling. It was full of grace and truth. The magnesian of it drew all men unto him. Multitudes followed him. He could not be hid. He thrilled and captivated men. He touched a new chord on the harp of life; and men listened, intent to catch its fresh, sweet music.

But nowhere did Jesus overturn the traditions of men so completely as in his conception of what constitutes a good man. Even the noblest minds of paganism had taught that:

"Men are great by gold and royal state.

By sharp sword thrust and knowledge of earth's wonder."

Power had been delfed. Riches and royalty, arms and ancestry, luxury and learning, were the keys of heaven. Might was manhood. To be great was to be good. Fortune was the favorite goddess of the race.

Then Jesus appeared and spoke the beatitudes, he told the parables and preached the sermon on the mount. He set a little child in the midst of them and said: "Of such is the kingdom of heaven."

He hurled the mighty from their seats and exalted them of low degree.

The humble, the meek, the holy the pure—they who possessed the spirit of a little child—these the Christian ages were to exalt as "good men."

And I am to speak of one this afternoon, before whose life we lift this high standard of goodness, and still pronounce him a good man. Here was one who dared to live the holy gospel he professed. I know he had his human faults, and weaknesses, and they are known to his Maker. As for myself, looking back over five years of friendship, I can say, "I find no fault in him."

His life lay before us, an open book. An atmosphere of frank, open heartedness, made it possible for even casual acquaintances to know him intimately. And none knew him but to love and none named him but to praise.

He never lost amid all the busy activities of his life the spirit of a child. Contact with the rough side of life—and he had felt that—had not hardened him. Success did not spoil the simplicity of his faith, nor mar the beauty of his humility. The last thing he would ever concede was that he was worthy. He was childlike, but he was not childish. He was a man, and he had put away childish things, but he never lost the spirit of a child.

He came, himself, from the ranks of the humble and the poor. He knew the burden and the stress of life. He knew how to enter into other's sorrows and his spared not himself to enter in.

God gave him an unusual genius for money making, and he never prostituted that divine gift. In a day when many are yielding to the temptation to profit by the miseries, the weaknesses the misfortunes of others, he trusted rather to unrelenting toil, simple honesty, and pure living as the way to commercial success.

The Almighty blessed and prospered him. He sought the Lord,

and the Lord helped him." And when success came he did not fall before the temptations of prosperity. He maintained his rare humility. "When he was strong, his heart was not lifted up." In best industries, the steel mills, all his wonderful charities, the old plant on the site on never let his left hand know what the right hand did. After the was about to be sold for junk and wrecked, and of course, that one day fifty-five-dollar bills in would have meant extinction for all time. Learning of this he conceived a plan by which the mills could be operated and so attractively did he present it, that it was accepted by the prospective buyers with a splendid outcome, in which all citizens take a just pride. The columns of smoke that ascend from its chimneys of day and the fires that illumine the night are a monument to the memory of the most loyal, the most zealous, the most effective citizen Portsmouth ever had.

But enough—the faults of Harry S. Grimes are written upon the sands and are as if they were not—his virtues are engraved on the tablets of love and memory from whence they shall endure vividly even long after we shall have joined him in that mysterious realm from whose bourne no traveler returns."

The law of kindness was his ruling motive. Kindness is another name for kinship. Mr. Appel felt his kinship with all mankind. He gave as readily to the heather in his darkness as to the Christian at his door. And he had learned that the "gift without the giver is naught". He gave himself with his alms.

For this we honor him. For this we love him. Genius that he was, great man that he became, he clasped about all other gifts and virtues, the golden girdle of love. Looking back on his life, in the perspective of a year, we are reminded that Christian charity is not a thing of the past.

What he was as a man, found enduring expression in his life as a citizen. This man was ever moved by a lofty sense of duty as a citizen. The zeal for helpfulness that marked his private life did not dim his sense of obligation to his city. He was a man of rare public spirit. Shortly before his death he told me that he was officially connected with seventy-seven public institutions in this city. All that meant a greater and a better Portsmouth, was his task. He carried on his heart the loads of this community. He told me once that almost never did he have an evening free to spend at home with his loved ones. Always some public service called him.

It was the loads of this public service to the commercial, social and spiritual life of our city that finally set his great heart pounding beyond its strength, till at last its silver cord was loosed and its golden bowl was broken. His public service had become a real cross, hard and heavy to bear. After his long illness of two years ago he tried to free himself from it, but he could not refuse its calls. One by one the loads came back, until his body and his heart could bear them no longer.

We shall fail of our purpose this afternoon, if we do not search for the secret of this wonderful life. Its secret was in God. George Appel was a Christian. He saw himself as God's child. No man could stand in his presence and not take knowledge of him that he had been with Jesus. His Master had called him and he had followed.

He looked upon his life as a trust from God. He saw it as God's investment, and himself as God's steward.

Faithful and devoted to all the outward forms of worship, his religion was no formal thing. It was born of a heart of love for God. Men saw it. They were attracted. The Sunday before his death, he welcomed into his church pew two strangers. On the day of his funeral they came back from a distant city. They told me that they never could forget him and his welcome, and they had come back to have one more look at his kind face.

Mr. Appel lived among us as a Christian gentleman, a Christian servant, and a Christian warrior. In public life he always took his stand against the forces of evil in his city and his land. He let his voice be heard for righteousness and fought a good fight against personal temptations and public evils.

The springs of his character, the secret of his goodness, the fountain of his virtues, the motive of his love, the stream of his life, flowed from the sanctuary and the throne of God. What he did, he did for love of God and men.

He sought first the kingdom of God, and other things were added unto him.

George Appel has been in heaven almost a year now. He has entered into the glad surprise of finding that, "inasmuch as he did it unto one of these least, he did it unto Christ."

His earthly life is ended. But his fragrance lingers to be our benediction and our inspiration. We shall understand him better as the years come and go and we shall love him more. We never do quite understand or appreciate those we love until they are gone. While they are here, they

loom too large before us. Time passes, and memory comes in to help us and we know them better now.

But even at best this life can never tell us all. We look for the dawning of a perfect tomorrow. We seek an abiding city beyond the stars. And when at last

"The mists have rolled in splendor From the beauty of the hills. And the sunlight falls in gladness

On the rivers and the hills: We recall our Father's promise In the rainbow of the spray. We shall know each other better When the mists have rolled away."

We shall know him better, then. We shall love him more.

I read of a young Englishman blinded at the age of ten. In spite of his affliction he won high honors, and the love of a beautiful girl, whom he had wooed but never seen.

A short time before his wedding he submitted to an operation that came to its climax the day of his marriage.

The young man, his eyes still swathed in bandages, went to the church where the ceremony was to take place. There the doctors awaited him. Entering on the arm of her white-haired father the girl approached the altar. The oculist was cutting the last bandage. Would he be able to see her?

The bandages fell. He raised his eyelids. He took a step toward her like one waking from a dream, and for the first time gazed upon the face of the woman he loved.

"At last," he cried, "At last," she answered.

Something like that will mark the reunions of heaven. And I am sure, having known him here, we all look forward with glad anticipations to knowing better, there, great soul, that we have loved long since, and lost a while.

The best kind of advertising is the praise of a pleased customer, and there are hundreds today praising Solvax because it has done for them what it is advertised to do. Not very long ago there were afflicted with all manner of sickness, uncomfortable pains and each day some other ailment that they were told was other methods of treatment with little or no benefit.

There are hundreds of people who were not the least bit surprised when they read awhile ago that Winstler Bros. were selling Solvax on a guarantee to refund the money in case it did not relieve. This remarkable kidney remedy is guaranteed to help the worst case of lazy, sluggish, or clogged-up kidneys, or the general headachy, rheumatoid, played-out condition that afflicts people suffering with kidney trouble. Solvax does not simply relieve. It cures.

## Shamrock Line Failed To Stop The Plunging Tigers

By defeating the Shamrocks of the East End Sunday at Millbrook the strong New Boston Tiger eleven won the football championship of central-southern Ohio. The Tigers by holding the Shamrocks scoreless also made a new record in "shut-outs." In their six games this season their goal line was not crossed once and in no game was it in grave danger of being crossed.

The team averaged over 150 pounds. James Lynn, the star halfback enacted the honor role in every game. He was greatly assisted by Test, Padan, Nutter, Matthews and Aldridge. The Tigers had a scoring machine that never quit working. With nearly the same line-up next season Manager John Emmert expects to take on some of the best eleven in the state, the 125 Handies of Columbus and the strong Canton eleven, to be included in the Tiger schedule.

Sunday's game was played on a heavy field and before a large crowd of grid-iron fans who braved the cold. The first half ended with neither side scoring. The Tigers had the ball continually in Shamrock territory and by making line plunges wore out the Shamrocks who fell an easy prey in the second half.

The scoring started a few minutes after the third quarter began. Halfback Test received a 20 yard forward pass from Lynn and ran 20 yards more for a touchdown. Padan kicked goal. After carrying the ball by passes and plunges to the 15 yard line Lynn tore through for the second touchdown and Padan kicked goal. Test intercepted a Shamrock pass and ran 10 yards for a touchdown. Padan kicking goal. Lynn on a forward pass and a line plunge made the fourth touchdown. Padan kicked goal. Test on a line plunge made the final touchdown. Padan failed to kick goal.

Test and Lynn did the heavy work for the Tigers. Guard McLaughlin in the backfield played the best game for the Shamrocks and made splendid tackles. "Bill" Smith, quarterback, slipped through the muddy fingers of the Tigers several times for long runs.

The lineups:

Ducky Holmes, who is forming a stock company to purchase the Lincoln Western League franchise from Hugh Jones, has secured an extension of his option until January 1, by which time he expects to have the full amount raised and complete the deal. The price set on the club by Jones is \$10,000 and Holmes has \$10,000 in sight in subscriptions.

## Herzie On Lookout For Second Sacker

Manager Herzog is on the lookout for another aggressive, quick thinking infielder, a lad who will measure up to himself and "Lennie" Heine Gosh. An infielder of this character may be hard to dig up, but Herzog, according to advisers from his home down in Maryland, is looking up the boys on a number of promising youngsters and he hopes to find a man who will develop into a second sacker of the Johnny Evers type.

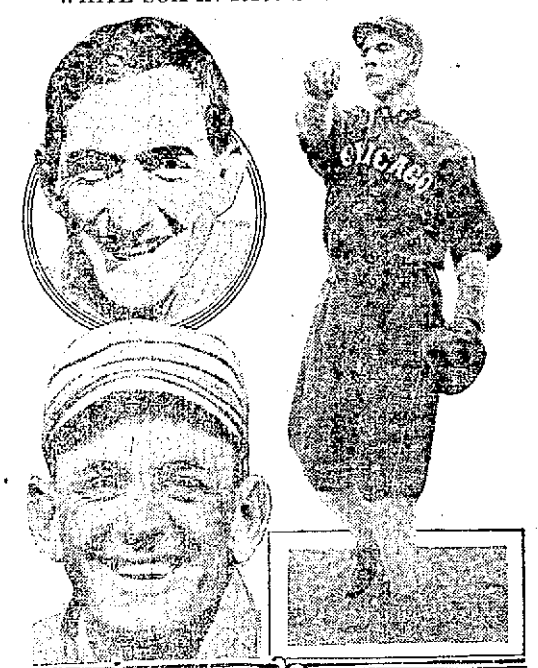

Of course there is no time limit on his second baseman hunt. This is the open season for managers to hunt for players to fill gaps on their teams.

## CAN THESE MEN BE OF REAL VALUE TO WHITE SOX IN 1916? STOVE LEAGUE ASKS

Left, Joe Jackson (top) and Murphy. Right, Fournier.

The Chicago White Sox outfield looked most formidable as a hitting trio last season, and there is no doubt that the same three—Jackson, Fournier and Murphy—will be holding down these positions in the next campaign. But in order for that outfit to be of real value to the Sox it must hit about .350 in the aggregate, for as a fielding combination there never was a weaker trio on any team which had pennant hopes.

## In A. A. 12 Years

With the passing of Pitcher Tom Dougherty from the American Association through his last season, the champion of Sox landed at 299 and the White Sox only two points lower. All the other clubs in the league were well below the 250 mark.

## Three Showed Class

Batting averages often come pretty near to telling the truth. In the case of the American League last season they actually do so. There were only three teams of any pretense to class in the league and these three are way out in front in team batting. The Sox are easily

## EIGHT CLUBS TO COMPRISE LEAGUE

Tacoma, Wash., Dec. 6. Though Joe McGinnity has been sitting hard in his attempts to operate a ball club in Tacoma for the past two seasons, he does not mean to quit and with a new recruit in sight for next year he is optimistic in his opinion that Tacoma will "come back" as a ball town. An eight club league is being planned for the north-west.

## 14 MEN ON SOUTHERN TEAMS

The controversy raging in the Southern League over who was responsible for agreeing to a cut in its salary limit at the San Francisco meeting seems to have been settled by President Baugh of the league, who, upon his return to his home in Birmingham, was quoted as follows: "The salary limit of the Southern League was cut to \$2,500 and the player limit reduced to 14 men."

## TIGERS MADE A SPLENDID RECORD

Below is the record of victories made by the New Boston Tigers this season:

Tigers, 26; Giants, 0.

## Syracuse Plays

Los Angeles, Dec. 6.—The football eleven of Syracuse University, which defeated the Oregon college at Portland, 28 to 0, last Wednesday and which played a six-six tie on Thanksgiving day with the University of Montana at Missoula, is to meet Occidental College, the champions of the Southern California Conference today.

## BATTLING WAY SHOWN BY COBB

To Cobb tops the American League in two divisions last year, according to the official averages, the Georgia wonder leading the output in stolen bases as well as in batting. The Tiger star as well as a batting mark of .320, while he stole no fewer than ninety-six sacks during the year.

## DELEHANTY RELEASED

The release by the Brooklyn Dodgers of Delahanty and his failure to reach out with any money because of the passing of the last of the famous family is in the news.

## PLAYERS GET "LETTER"

The players of the Brooklyn Dodgers will receive a letter from the team manager, John McGraw, on Monday.

## Arrows To Play

The Ironton Arrows will play the New Boston Arrows a return game on Millbrook gridiron next Sunday.

## HERE ARE BOSS SLUGGERS

The ten leading sluggers of the American League the past season were as follows:

Cobb, Detroit.....	370
Goetz, Boston.....	350
W. Davis, Philadelphia.....	348
Thomas, Philadelphia.....	347
E. Collins, Chicago.....	332
Speaker, Boston.....	329

Melvin, Philadelphia.....	314
Vaugh, Detroit.....	313

## Welcome To Join Federals

The announcement of the Chicago National League club that its players would be signed by contracts for a period of one year, starting on January 1, is a strong indication of the direction of the game. Any player on Brecher's team who don't care for one-year contracts are welcome to jump to the Federals.

## For 90c You Can Get the Ideal Gift for Every Man

A crystal glass humidor jar containing one pound of Tuxedo, the mildest, most fragrant tobacco. At every store where tobacco products are sold.

Last Christmas more Jars of Tuxedo were given to men throughout the United States than any other single trade-marked article!

Because Americans are learning to make suitable gifts at Christmas time—and learning that Tuxedo is the best gift of all for a man.

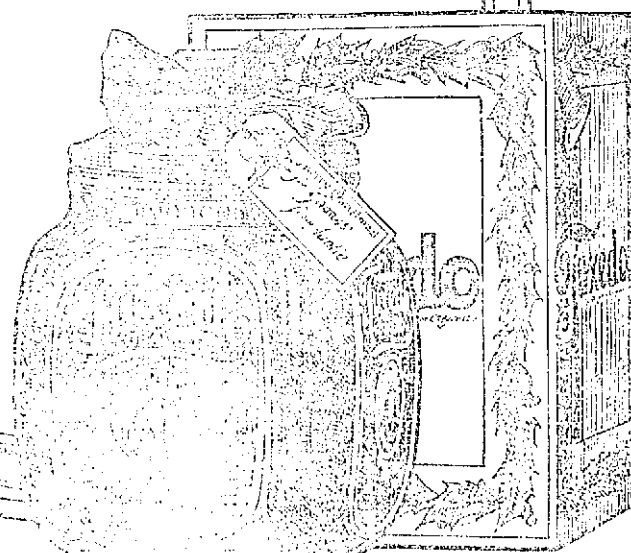

Tuxedo is the mildest, pleasantest pipe tobacco in the world—made absolutely non-biting and delightfully mellow by the original "Tuxedo Process" that has never been successfully imitated.

Last Christmas the demand for Tuxedo humidor jars was so great that the supply of many dealers was exhausted, and thousands of people were disappointed. The safe plan is to place your order with your dealer now. He will be glad to set your jar aside for you until Christmas.

The Tuxedo Christmas Humidor Jar is beautifully decorated with holly, ribbon and Christmas emblems, and packed in a handsome carton, for mailing by mail or messenger free of charge.

## BACK HURTS

## BEGIN ON SALTS

Flush the Kidneys at once when Back-ache or Bladder bothers—Meat forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage, or attended by a sensation of stinging, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act properly. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the first pure, thereby avoiding serious kidney complications.

# MAY PUT TIME LIMIT ON CHURCH SERVICES; 9 O'CLOCK DEAD LINE

Mayor Adam Frick is seriously considering ordering services at the Pentecostal church on New Sixth street to close at 9 p. m. in the future.

A number of East End citizens have lodged complaint with the mayor that the holding of services

until late hours of night has become an annoyance to them. One of them, Marion Young, an employee of the P. H. Harsha flour mill and who lives at Broadway and Sixth streets, made affidavit before the mayor Saturday evening that by reason of the

church being kept open and the kind of people attending it, the peace of the community is disturbed and it deprives him of the rest and recreation he as a laboring man is entitled to. The mayor will summon Rev. Arthur Candill, the pastor, to go over the situation with him.

## Girl Gives Police Knife That Was Used In Cutting

The knife that is supposed to have been used by Charles Lowe, accused of cutting Daniel Holbrook, was turned over to the police Monday morning by a girl giving the name of Cecile Can-

ter, who resides on Kendall avenue. She testified in police court Monday morning that Lowe, with whom she says she was only slightly acquainted, handed her

the knife shortly after she reached the dance hall on the night of the cutting. The knife Miss Canter says was closed when handed to her. It is an ordinary pocket knife, but rather long bladed.

## HUB SALOON REGULAR ROBBERS' DELIGHT; IS RAIDED FOURTH TIME

For the fourth time in the past year the Hub saloon, located at No. 318 Chillicothe street, and owned by Ed Treat, was robbed Sunday night.

Entrance to the saloon was gained by breaking a large rear window. Nine or ten half pint bottles of one brand of whiskey, two pints of the same brand several half pints of another brand were taken, besides nearly all of the pool checks in the house. The fact that quite a quantity of chewing gum was also taken has led to the belief that it was the work of boys. Some few cigars are also thought to have been taken, while fifteen pennies in the cash register were not disturbed. The robbers dropped one of the bottles of whiskey in their flight. It was found by Bartender Tommy Murphy behind a box of beer in the rear part of the saloon.

The robbery was discovered early Monday morning and police began investigating as soon as notified. The pool checks may afford a clue to the robbery. Jack Lewis, a carpenter, found a half dozen of the checks in a pile of leaves in front of the United Brethren church at Seventh and Gay streets. He took them to the Hub saloon and turned them over to the proprietor.

A certain police character came to the saloon early Monday and presented one of the checks in payment for a dime's worth of whiskey. When asked how he came into possession of it he said a man at the Biggs house corner had given the check to him. The man's name was given to Police Capt. Grant Cooper.

There is no fence at the rear of the saloon property making access to it from the alley very easy.

## Change In Meeting

Members of the Women's Missionary Society of the Central Presbyterian church are requested to postpone the change of meeting for this week. The meeting will be held Wednesday afternoon at the home of Mrs. C. H. Nagel, 1834 Seventh street, instead of on Thursday at the home of Mrs. George H. B. Stearns.

The bill was commissioned by Mr. Marsh who was in the B. & O. express service at that time. Marsh sent it to him with the gentle reminder that he (Marsh) was sure getting old. Saturday's subject brought the following reply: "Old Friends—And erstwhile subject of Oberlinism. The way bill

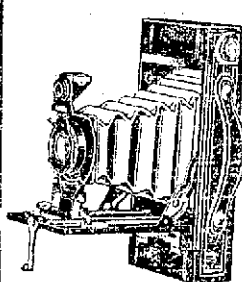

## COLD WEATHER RHEUMATISM

Why should rheumatism, a disease of the blood, be worse in cold weather than in summer?

The rheumatic poison in the blood is the predisposing cause of the disease. If you have the taint in your blood you may have rheumatism whenever the exciting cause stirs it to action. Cold weather and dampness are exciting causes of rheumatism. They excite to action something already in the blood, something that you must get rid of if you would be free from rheumatism.

What this something is, nobody knows. Not very long ago it was thought to be uric acid. Many doctors now think it a poisonous organism or a specific bacillus, but they cannot find the bacillus. It is a known fact that in rheumatism the blood becomes thin rapidly, that building up the blood relieves the rheumatism and that there will be no return of the rheumatism as long as the condition of the blood is maintained. Dr. Williams' Pink Pills are recommended for rheumatism because they keep the blood rich and red and free from rheumatic poisons.

The free book, "Building Up the Blood," tells all about the treatment. Send for a copy today to the Dr. Williams' Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills.

## Slapped Face And Gave Him "Boot"

Some foreigner, who was unable to secure accommodations at the Manhattan hotel at 3 o'clock Sunday morning applied for lodging at the city prison only to clash with "Turnkey Joe" Stokley. The prison itself was overcrowded with lodgers and prisoners and the new-comer was permitted to stretch out on a row of chairs in the court room for a snooze. Later when Joe started his morning cleaning and aroused the foreigner to get out of the way, he showed fight and began vilifying the officer. Joe slapped his face and gave him "the boot."

## Say North End Boys Used Vile Language

A gang of North End boys who caused quite a commotion by their shockingly vile language at Fourteenth and Railroad streets Sunday night have been ordered to appear before the mayor. ## HOLY FEAST DAY

The feast of the Immaculate Conception will be observed in the Catholic churches Wednesday. First mass at St. Mary's church will be at 5 o'clock and High mass at 8 o'clock. It is a holy day of obligation.

## FIRST CHRISTIAN CHURCH NOTES

Judging from the way the tickets are selling, a splendid crowd will be in attendance to the illustrated lecture to be given at the church tomorrow, Tuesday evening, by L. A. Shelton on his trip to the Pan-American Exposition. More than 100 hand-painted slides will be thrown on the canvas and Mr. Shelton promises to give a lecture that will not only be entertaining but highly instructive as well. He will go into detail containing many of the interesting sights he saw going to and from the expo, while his description of the displays at the big fair will need nothing to be desired so far as minute description is concerned. A duet will be given by Messrs. Thompson and Foster, while the male chorus will sing at least two selections. The entertainment will be given under the auspices of the Loyal Men's class and is an assured success.

Section Four will give a social at the home of Mrs. W. R. Cline, 420 Campbell avenue, on Friday, December 10. Refreshments.

Owing to the Bible institute to GET NEW KIDNEYS!

The kidneys are the most over-worked organs of the human body, and when they fail in their work of filtering out and throwing off the poisons developed in the system, things begin to happen. One of the first warnings is pain or stiffness in the lower part of the back, highly colored urine, loss of appetite, indigestion, irritation, or even stone in the bladder. These symptoms indicate a condition that may lead to that dreaded and fatal malady, Bright's Disease, for which there is said to be no cure. You can almost certainly find immediate relief in GOLD MEDAL Haaren Oil Capsules. For more than 200 years this famous preparation has been an unfailing remedy for all kidney, bladder and urinary troubles. Get it at any drug store, and if it does not give you almost immediate relief, your money will be refunded. Prices, 25c, 50c, and \$1.00. Be sure you get the GOLD MEDAL brand. None other genuine.

Section No. Five will meet with Mrs. Collins, Eighteenth street and Grandview avenue Friday afternoon at the usual hour.

In order to help swell the crowd the Jr. O. U. A. M. band will render several selections in front of the church Tuesday evening, preceding the illustrated lecture to be given by Mr. L. A. Shelton. The band boys kindly donated their services and as a result the attendance will no doubt be largely increased.

Section No. Five will meet with Mrs. Collins, Eighteenth street and Grandview avenue Friday afternoon at the usual hour.

## Fur Coat Stolen

The police are investigating the theft of a black fur coat from a home at No. 345 Front street, Sunday evening. A boy of the neighborhood is suspected and will be questioned by the mayor.

## Scientists discover the cause of bleeding gums and loose teeth

The old idea that bleeding gums and loose teeth (symptoms of pyorrhea) are due to little pieces of tartar or bone under the gums, has been exploded. Scientists have made the astounding discovery that this disease is caused by a germ which is found in every human mouth.

This germ is the most active and destructive enemy of your teeth. Are you protecting them against it? You can ward off its constant attack and escape the dread results of the disease by using the proper corrective and preventive treatment in your daily toilet.

To meet the need for this treatment and to enable everyone to take the necessary precautions against this disease, a prominent dentist has put his own prescription before the public in the convenient form

of Seneco Tooth Paste. Seneco contains the best corrective and preventive for pyorrhea known to dental science. Used daily it will successfully protect your teeth from this disease. Seneco also contains the best harmless agent for keeping the teeth clean and white. It has a refreshing flavor and leaves a wholesomely clean, cool and pleasant taste in the mouth.

Start the Seneco treatment tonight—full details in the folder wrapped around every tube. Symptoms described. A 25c two oz. tube is sufficient for six or eight weeks of the pyorrhea treatment. Get Seneco at your druggists today, or send 4c in stamps or coin for sample tube and folder. Address The Sentinal Remedies Co., 506 Union Central Bldg., Cincinnati, Ohio.

# Sunday School Leaders Plan For Organization; Big Rally January 2

With practically every Sunday school in the city represented at an enthusiastic meeting held by the superintendents of the various schools at the Second Presbyterian church Sunday afternoon at 2 o'clock, plans for a permanent organization were taken up and discussed.

It was deemed advisable for the superintendents to band themselves together in order to systematically look after their work and a committee was named to arrange for by-laws and a constitution.

It is composed of Will Hazlebeck, of the German Evangelical church, who is chairman of the committee, Philip Pfarr, of Manly Sunday school, and George Youngman, of the Fourth Street M. E. church. Another meeting will be held next Sunday and this committee will make its report.

Plans to observe Rally Day in Portsmouth on Sunday, January 2, were discussed and a movement is already under way to give the city one of the greatest Rally Days in its history, every effort being made to have an attendance of 10,000 in the Sunday schools on this day.

A number of short talks on what lines to proceed to get the best results were made and the meeting was full of enthusiasm. Each superintendent present pledged himself to get the right way and make a determined and systematic effort to get on the largest attendance of the year. If this is accomplished the attendance figures should pass the much coveted 10,000 mark.

Cards, thousands of them, will be mailed out telling all about Rally Day and the committee that will be held after their distribution include C. M. Howard, James Xoley and L. R. Thompson.

W. W. Gates acted as chairman of Sunday's meeting and John McMillan secretary. Another meeting will be held at the same place next Sunday, at 2 p. m.

Meritt H. Soister, Berkeley, Cal. writes: "Last Saturday, after tramping around the Panama Exposition with wet feet, I came home with my neck so stiff that I couldn't turn. I applied Sloan's Liniment freely and went to bed. To my surprise, next morning the stiffness had almost disappeared, four hours after the second application I was as good as new."

## Silence, Satan's Weapon

SAYS REV. GEO. P. HORST

Two large audiences listened to the sermons of Rev. George P. Horst at the Second Presbyterian church Sunday morning and evening, the Sunday morning attendance being especially large.

In the morning service Rev. Horst had for his subject "The Sin of Silence," which he termed a non-witnessing life for Christ. Silence, he said, is the most subtle temptation of Satan. Christ said for his followers to go out into the

entire world and preach His gospel, while Satan urged them to remain silent. He pleaded with his congregation to rid itself of the sin of silence.

His subject at the evening service was "A Shadow of a Rock in a Weary Land." One of the most comforting spots out in a desert, he said, was the shadow of a rock. God told Isaiah that the good man should be as a "shadow of a rock in a weary land, a shelter

in the time of storm." He asked the members of the church to be as a shadow of a rock to those with whom they came in contact in their daily lives.

Musical features of the day's services included a solo by Miss Myrtle Ziegler at the morning service, and a male quartet number in the evening, sung by Melzar Chick, Conrad Roth, Harry Denton and Dr. S. D. Ruggles. Special anthems were sung by the choir at each service.

## OPENING OF MUSIC STORE WAS A DECIDED SUCCESS

It is estimated that fully 3,000 people attended the opening of the Hutchison-Wanner Music Co., 933 Gallia street, Saturday evening. In fact, it was one of the most successful events of its kind ever held in the Peerless City, and Manager H. H. Hutchison, together with his assistants, were all smiles. From 7 o'clock until after 10 a steady throng of people passed through the beautiful store room, admiring the beautiful pianos and Edison Diamond Disc machines, the prettily decorated store enhancing the appearance of the music wares.

The opening was even a greater success than Manager Hutchison had anticipated. In all he gave away 1750 choice carnations as souvenirs, and was considerably disappointed because the supply was exhausted. However, the people came, not because of the souvenirs, but to inspect the up-to-date store, which is destined to take a prominent place in the local merchandise world.

Throughout the evening music was discoursed. Prof. Smith presided at the Hardman-Grand piano and delighted everybody with his choice selections.

The Hardman Autotone and Milton Player Pianos were called into use and added much to the gaiety of the occasion. The latest selections from the opera "Chin Chin" were placed on the Edison Diamond Disc machines. It should be said right here that the second floor was not ready for inspection on the opening night. This will be the display

room for the Edison machines, and when the improvements are completed will equal any of the show rooms in the state. Not only will Edison machines be displayed on this floor, but the records will be kept there, making this part of the store an exclusive one for Edison machines and supplies.

Manager Hutchison graciously received the visitors, making everybody feel perfectly at home. He was assisted by Mrs. Wanner and Misses Hartlage and Prantz. Owing to illness, Mrs. Hutchison was detained at home and could not take any part in the opening festivities, much to the disappointment of her many friends.

The Hutchison-Wanner Co. will handle three makes of pianos and player-pianos, namely Hardman, Milton and Kinsball. These makes of pianos need an introduction to the people of Portsmouth, for they have been sold in this city for several years. Together with the Edison talking machines, the new company will be well-equipped to suit the tastes of their patrons.

Manager Hutchison has been located in this city for the past several years and has established himself as a thorough music man. He is possessed of a pleasing personality, is pleasant and accommodating and under his direct supervision the Hutchison-Wanner Co. will no doubt establish itself as one of the leading music houses in the state. The Times here speaks for the concern plenty of prosperity.

## Discuss Ideas For New Church Bld'g

Rev. Albert Marting, pastor of the Fourth Street M. E. church, arrived home Saturday evening from Berea, O., where last week he attended a Ministerial Institute, which attracted ministers from all parts of Ohio. On Thursday Rev. Marting made a talk at this meeting and his subject was "Congregational Singing and How to Foster It."

Rev. Marting conducted the usual Sunday services at his church here yesterday and was

greeted by two large audiences. His subject in the morning was "The Church at Work and the Secret of Success," and in the evening his subject was "Your Life."

While away last week Rev. Marting visited Lancaster Alliance, Berea, Canton and Akron and inspected many of the churches of these cities and secured a number of building ideas, which will be incorporated in a handsome new church his congregation is planning to build on the hilltop. Rev. Marting was especially impressed with the new Grace Reform church in Canton.

While in Berea, Rev. Marting was the guest of his parents, Rev. and Mrs. John C. Marting.

## HOTEL AFIRE, MANY ESCAPE BY JUMPING

Charlesburg, W. Va., Dec. 6.—Thirty persons escaped death by either jumping or sliding down ropes made by tearing fire-escaping into strips when the virtually destroyed, the Walker House, a three-story frame structure, here early today, (Edw. Moore, of Ohio, and T. C. Cook, of Western Springs, both guests, jumped from a second story window to escape flames and were injured, but not seriously. A majority of the men, who jumped were compelled to leave practically all their possessions behind.

## Woman Asks For Paramour's Release

The mayor is in receipt of an appeal from a woman giving the name of Nora Henrietta, of Huntington, W. Va., asking for the release of E. E. Geist, the photographer with whom she was recently arrested for undecent conduct aboard an N. & W. passenger train. Replying to her letter, the mayor says it cannot be the policy of his court to liberate Geist, who in all probability would again be found traveling over the country with her as man and wife and advised her to dismiss whom she was recently arrested for undecent conduct aboard an N. & W. passenger train. ## TERRIBLE BREAKING OUT ON HEAD

Itched and Burned, Child Would Scratch and Cry All Night. Spread Very Fast. Caused Hair to Fall Out. Used Cuticura. Trouble Gone.

Hillsboro, Mo.—"When my little daughter was two years old she had a terrible breaking out on her head which annoyed her a great deal. It came in yellow blotches which would break and run and where the matter would go it would break out again. It itched and burned. She would scratch and cry all night. The trouble spread very fast. It saved her great distress and caused her hair to fall out. I applied various remedies without her receiving any benefit. At last with but little faith I began the use of Cuticura Soap as a shampoo and then applied Cuticura Ointment. In one week her trouble was all gone and she has never been bothered since." (Signed) Mrs. Lucy B. Wiley, June 26, 1914.

For red, rough, chapped and bleeding hands, itching, burning pains, and painful eruptions of the scalp, face, neck, arms, legs, feet, etc., use Cuticura. Sample Each Free by Mail. With 32-p. Skin Book on request. Address post-card "Cuticura, Dept. T, Boston." Sold throughout the world.

**FORECAST**  
Fair and cold over upper Ohio valley tonight. Tuesday morning cloudiness.

River will fall slowly.  
H. G. DONNALLEY,  
River Observer.

The Ohio river was 12.4 ft. and falling here Monday morning. Tuesday's packet departures: Str. Klondike down for home at 2 p. m.; Str. Greyhound up for Huntington at 3 p. m.; Str. Carrier for Pomeroy at 3 p. m.

Captain William Vaughn, 70 years old died at Catlettsburg, Ky., Friday, December 3. Captain Vaughn at one time owned and operated a line of steamers up the Big Sandy River. He retired from the river business and was owner of a big store in Catlettsburg. He was the father-in-law of Captain J. B. Hughes, of the Greene Line steamer Tacoma, who received the sad news yesterday and left by rail for Catlettsburg. Captain Henry Holloway will have charge of the steamer Tacoma during Captain Hughes' absence.

## Mother Prevents Baptizing

Rev. Arthur Candill, pastor of the Pentecostal church at the head of New Sixth street, called up Mayor Adam Frick over telephone Saturday evening to inquire as to the law regarding any interference with religious duties.

He said a Mrs. Adams, an East End woman, was trying to keep him from baptizing her daughter in the Ohio river Sunday. The mayor advised him to respect the wishes of the parents of the girl and besides said he did not much blame the mother for not wanting her daughter baptized in the river cold as the water is at this time of the year.

## EAST ENDERS AND TIGERS WIN IN BOY SCOUT LEAGUE

Those cruel East Enders defeated the Eagles Saturday by the overwhelming score of 56 to 6. It was a walk-over for the Troop 8 boys. Doll threw 15 field goals for a score of 30 points. Williams, at center, also put up a fast game. The line-up: East End Positions: Eagles: Williams—Walker, A. Doll, Dunn, Hamilton, L. G. Marsh, Field Goals—A. Doll, 15; Williams, 7; Dunn, 3; H. **Big Debate on Tonight.**  
The Boy Scouts will stage their first debate of the season tonight at the Mammie M. E. church, beginning promptly at 6:30 o'clock. This is the first debate for the loving cup which is presented each year to the team winning the greatest number of debates. Tonight's debate will be between two teams who have won the cup in the past two years: Troops 2 and 8. The subject tonight is of intense interest: "Resolved, That moving pictures are beneficial to the young." Troop 8 will argue the affirmative side with debaters Shively and Hamilton. Troop 2 the negative side will be Debaters Williams and Garrison. The judges selected are: Charles R. Judds.

**Tigers Win at Last.**  
The Tigers registered a victory Saturday after a streak of hard luck, having lost nearly all of their games by close scores. They put it over the last West Enders by the score of 15 to 13. The first half closed with the score 8 to 4 in favor of the Tigers, with the West Enders playing a fast game at the close of this half. The West End boys also got a big start in the last half, but failed to overcome the West Enders' lead. George and Edwards featured with many brilliant and spectacular plays. The line-up: Tigers Positions: West End: Wilson, C. Eppenweier, Edwards, L. F. Davis, George R. Hopkins, R. G. Walker, James, L. G. Smith. Field Goals—Davis, 2; George, 4; Wilson, 2; Edwards, 3; Virginia, 2. Foul Goals—Smith, Edwards. Referee—Wagner.

**Boils and Pimples Dangerous**  
S. S. S. Your Remedy  
Standard For Fifty Years

Modern science has proven that boils and carbuncles, pimples and unsightly skin blotches, are the danger signals of diseased blood. Scaly skin and itching of Eczema, Scrofula, rashes—all skin diseases are aggravated by bad blood—it's the infected blood that's dangerous. Don't wait for the boils. If you have pimples and blotches, take instant action. It goes to you that your blood is filled with impurities. You must wash out your blood, strengthen and stimulate it to healthy action with Nature's own blood tonic, S. S. S. It is the standard blood purifier of the world. Don't use any drugs, don't use ointments and salves. S. S. S. reaches the blood, drives out the impurities. It makes healthy perspiration—the poison is literally sweated out through the skin. Boils, blotches, Eczema and the Scrofula infections disappear. It does what salves and lotions can never do—it goes to the very root of the trouble by cleansing the blood. Your skin becomes clear and you soon feel the vigor of the return of perfect health. S. S. S. is pure, vegetable. You can get it at any druggist's, but you must take S. S. S. Let us tell you about blood diseases. Write for book of facts, "but the Mirror Tells." If yours is a long standing case, write for expert advice to S. S. S. Co., Atlanta, Ga.

Fairmont, W. Va., Dec. 6—John D. Rockefeller, Jr., will arrive here today from New York for a two days' inspection of properties in which he is interested. He will visit the Helen's Run and Wyatt coal fields.

## CHILDREN! Telephone to Santa Claus!

This Evening and Tuesday Evening From 6 Till 9

We have made arrangements with the local telephone exchanges whereby the children of the community can telephone direct to Old Santa this evening and also Tuesday evening from 6 o'clock until 9. Santa has agreed to take that much time away from his work of making toys and dolls, to answer the calls the children give.

Any child that wishes to talk to Santa Claus tonight is perfectly welcome to do so. All you have to do is to go to any telephone and tell Central you wish to talk to Santa. You don't need to call any number, for the ladies at Central know where Old Santa is and they will connect you with the old fellow.

Remember, Santa can talk to you only this evening and Tuesday evening and from six o'clock till nine only.

## THE GOVERNMENT STAMP

Official reports sent out from Washington confirm the statements from various cities over the country, carried in The Times of Wednesday, and telling of the marked revival in manufactures and trade. According to it, in the fourth reserve district, of which Cleveland is the center, and embracing Pittsburgh, Cincinnati and the whole Ohio Valley, there is actually an unprecedented activity, marked specially by a tremendous demand for steel products. There is no lack of labor, but rather a scarcity of labor. Glass factories are operating on a fuller schedule than for months and the output of auto and rubber plants is up to capacity. Banks have record deposits and their reserves are heavy. In addition the failures of November are less than for any previous month of the year, which is taken as the best sign of all.

## WHAT ABOUT CIVIL SERVICE

There is one thing about this plum tree spectacle to which Mayor-elect Kaps has been treating the public the past few days, that calls for the thoughtful consideration of law-abiding people. And that is this—the people of Ohio voted into the constitution by a substantial majority a civil service law. Under it laws have been made with the idea that better service be secured to the people, that trained men in various capacities should be preserved in their positions and not be subject to the many sudden changes incident to our political life. Under the civil service law our police and fire departments are supposed to be protected, so are many others in city service. Yet Mr. Kaps, the new mayor, is going blithely on, regardless of law, and planning to remove every man in the city service who is a Democrat. It does not matter if a man is competent, his politics is considered reason for a change.

As far as we are concerned, we do not believe in civil service to any great extent. We believe that if a political party gets in control, it is entitled to have its friends on the job. But the fact is we have a civil service law. It is there written in the constitution, and officials take an oath to preserve it. Mayor-elect Kaps will do so when he assumes office.

## ON CHRISTMAS EVE

One of our friends sends us a clipping from a New York paper concerning a pretty old custom long in vogue in Europe, that of extending silent greetings on Christmas Eve by having all the homes in cities and villages lighted with candles. It certainly commends itself as a most delightful way of ushering in Christmas day, and in our own state, the Marion Star is urging it upon the citizens of that city with indications that it will be generally followed. Why not try it in Portsmouth?

The clipping alluded to, from the Oxford, New York, Times, is as follows:

"Marie Davidson, in the Woman's Home Companion, tells of a charming old custom in England that would be well to follow more generally in this country. Why not Oxford try it this year and give Christmas greetings to the passer-by? The writer says:

"Old, very old, in England, is the custom of setting lighted candles in windows on Christmas Eve to give holiday greeting to the passer-by, but little use has been made of this charming idea in our country. Baltimore, however, has had a city-wide lighting of candles which was so successful that it is repeated every year.

"Weeks before Christmas, when plans were being made for the Community Tree, it was suggested that each household set lighted candles in the parlor windows to wish 'Merry Christmas' to their fellow townspeople, not even the most enthusiastic supporters of the 'Candle Greeting' expected to see half the number of windows so lighted when Christmas Eve came.

"Scarcely a city block in any section of the city was without at least one illumination, and it was not rare to see every house in a row brightened by this evidence of 'Peace on Earth, good will to men.' It warmed the cockles of one's heart to walk through street after street with these silent Christmas greetings everywhere, and no one who has gone through such experience could ever want to know another Christmas Eve without them."

One of the little puzzling things these days is why and wherefore of the complete eclipse of Hon. Nate R. Gilliland. So far as known he has not been called into a single conference nor has his advice been asked upon a single appointment. How soon are the services of the truly great forgotten?

Reading the names of the party of action-famous peace advocates who accompanied Henry Ford on his mission to Europe, one feels somewhat like the old Duke of Wellington when a cabinet was announced. He did not know many of the men named and as each was read to him he shouted out, "Who, Who?" The story got around and the cabinet became known as the "Who, Who" cabinet.

Mr. Mann, house leader of the Republican side, reveals what he assumes are efforts of the President to enlist Republicans in support of his program. That's proof enough of the hollowness of loud professions that were made not long ago.

A. R. LaRue has returned from his vacation spent upon the coast. A. R. says he saw Stella and everything else as advertised, including Tia Juana. That may be why he borrowed twenty to get back on.—Tribune, New Orleans.

## STRICTLY NEUTRAL

## A TIP TO THE BEST

Cincinnati quotations on apples are running: Pippins \$2 to \$2.50, Baldwins \$2.25 to \$2.75, Rome Beauties \$2.50 to \$2.75, Bellflower, \$2.50 to \$3.75, Ben Davis \$1 to \$2, Jonathans \$2.50.

Other varieties than are coming into favor here in Scioto county are not quoted, but as they rank in quality along with Rome Beauty and Jonathan it is reasonable to assume they would command about the same price, if they were offered on the market. Anyway the quotations show some of the best varieties to cultivate and carry out the assertion of the Times that the Ben Davis is a good apple not to raise.

"I'm a misin' familiar faces around our new mayor," said the man who stands on the First National Bank corner every day in the year, holidays included, as he gazed upward to see if there were any new captions in the vicinity of the Seventh floor. "Why is used to be that Kaps could not take a step without Young Doc, Danny, Charlie Lewis or some others of the Boy Scouts acting as escort. An' now it seems that they don't get around in the vicinity of the mayor to be except that they begin waving their arms and talking in bad language. And now it is Old Doc John, Charlie the Boss and their kind who guard the owner of the plum tree. Strange, strange."

An observing citizen of Roanoke went over the business district of the city, last year, and counted thirty-three vacant store fronts. This year, in the same month, he again went over the same district and saw thirty new business buildings, all occupied, had been erected, and three of the vacant stores also occupied. A note that business is picking up.

Speaking of apples and markets, the Jones and Abner apple orchard at Laramie, Jackson county, sold their entire crop, run of orchard to the Kroger Grocery Company, the price being one cent per pound. Fifty car loads were shipped. Owners of the orchard picked the apples and placed them in sorting tables where the purchasers took charge of them. The apples were sorted and graded, the small ones or defectives being used for cider vinegar.

We suppose that when Mr. Henry Ford announced before a big gathering for Europe that he had made his will, he caused little streams of sweat to creep to and down the spines of his fellow citizens, and that visions of submarines and jails immediately came on their minds before their eyes.

Oh, well, it will soon be Christmas and then for a brief time the city will be turned over to Mayor-elect Kaps and his patronage counties. And in the meantime, do not forget to buy your presents early. You will get a better selection and you will save yourself a lot of worry, besides. And then think of what it will be like in the parlors and bedrooms of the stores.

## SUBMARINE VERSUS SUPERDREADNOUGHT

The question has again and again been asked whether the submarine does not mark the passing of the superdreadnought to the scrap heap. The big gun has certainly dismounted armor proof, float about the submarine and the dreadnought? Sir Percy Scott in England and Admiral von Tirpitz in Germany certainly banked on the submarine as more powerful than the dreadnought, but there is not an expert living who would answer that question with finality today. To begin with, the submarine has only begun. What improvements may develop no one knows. At time of writing the final word in submarines is the big fish in the Baltic but that submarine may be displaced by a craft built tomorrow. The submarine has some terrible disadvantages. It has no eyes except in the conning tower and does not seem able to develop any such search lights, without betraying its own presence. A joke is told in this connection on some of the cruiser crews. The captain of the submarine crew venged the captain of the cruiser that he could follow cruisers and destroyers out to sea below the surface and come up on them unexpectedly. The wager was taken. The cruiser and destroyers proceeded out to the practice ground. All eyes were on the watch for the bubble-track on the surface of the sea that betrays a submarine below. Suddenly, word would come to look out for the periscope on one side. A lightly trail seemed visible. "Hey—there! Hello!" shouted a voice on the other side; and the submarine lay rolling gently on the opposite side from the lookout given. A false dummy alarm of which the navy keeps the secret to itself had been given on the wrong side—a torpedo "fired round a corner" according to young Hays Hammond's invention or some other device to mislead an enemy.

Other great disadvantages of the submarine are slow speed. It can always be sighted from an airplane overhead. The quarters are cramped for the crew, and the atmosphere, especially when the submarine must dive and rock at bottom—"go to sleep"—is the technical phrase—becomes fearfully close, damp, cold and impregnated with gasoline that has a nasty headache effect on the men. Though the crews decorate the engine with skull and crossbones for every ship sunk, though they play bridge and set a gramophone going at the bottom of the sea when hidden from attack, the strain on the nerves is terrible. The stiffness is palpable. The sense of unknown danger and utter isolation will unstring the strongest. See how as to submarines is quite as much to preserve the morale of future crews as to hide the horrors of death by suffocation and strangulation when caught in the enemy's net and sent to bottom for five days. From "What Sea Power Means to England," by A. C. Laut, in the American Review of Reviews for December.

Notwithstanding all that clamor over the report of the special examiner into county financial affairs, old Scioto hasn't yet been thrown into the hands of a receiver.

Scioto county is intelligently developing her agricultural and horticultural opportunities, which is a mighty good thing for Scioto county.

Again there is talk of asphaltuting the concrete portion of the Scioto Trail, but why make a bad matter worse? Brick is the thing and the only thing for that highway.

Francis Bacon says a wise man will make more opportunities than he finds.

Now don't forget to mail that Christmas present early. The later you wait the greater possibility of delay and damage.

To a man up a tree it looks as though the only question our good young governor has got to solve, in appointing a saloon license commissioner for Scioto county, is whether he shall stick to his friends or throw bait to his old enemies.

As the Kansas City Star sees it, the Russians must think the Germans are not going to make it hot enough for them this winter. It may be, though, they are tired of running.

Sometimes there is nothing but pain for pay, as in the case with those Dayton burglars, who carried away and smashed an empty cash register.

Advice is sometimes surpluse, as instance, the cablegram, which warns to take the tales of bread riots in Berlin with a grain of salt.

We don't know why it is, but the coal miners, who get \$4 a day, are nearly always poor and oppressed, while the farm hand, who works for \$20 a month, requires a competence.—Topeka Capital.

According to a statistician, few baldheaded men are found among the insane. Does this point to the reason why eminent pianists and violinists and football players have long hair?—Columbus Dispatch.

A feminine branch of Congress would be useful this winter. It could discuss prohibition and such things while the men talked business.—St. Louis Post-Dispatch.

It is not observable that the contractors are falling over themselves to repair the damages and imperfections in the water works system.

Much as they would like to assist personally in getting the boys out of the trenches before Christmas, our governors seem to be almost a unit in feeling that their place at this time is right here in this country, where they can continue to circumvent the civil service law in every way possible.—Ohio State Journal.

NEW-YORK-DAY-BY-DAY.  
BY  
O. O. MCINTYRE.

New York, Dec. 6.—Henry Oyen, the novelist, blew into Gotham the other day to stay a week—and left in two days. He upset a kettle of theories that New York is the place for writing men. Oyen used to migrate between New York and Chicago as a newspaper reporter and then he began to write

stories of the underworld. He picked out one of these dark, gloomy studies in Washington Square so he would be in the proper atmosphere. He played the French and Italian table d'hotes at night with the rest of the fringe—those who starve in the literary attics and knock editors who wear horn-rimmed glasses.

One night Oyen went to his favorite cafe. Three stories had been returned to him that day. At the top end of the evening he rose from the cigarette-littered table, took a good look at the tablecloth stained a water red from the via ordinaire and covered with sick-looking demitasse cups. He casually bade his friends good night.

Forty-eight hours later he was dipping a paddle in a pine-crusted lake in a wilderness 1,500 miles from New York. He began to write of the woods, of the husky lumberjacks, the great snowed-out children of the forest—men with hair on their chest instead of the sickly, pale, cocaine-sniffing misfits of the underworld. He says he will never return. He has found the life.

Oscar, the far-famed manager of the Waldorf, has been courting the muse on the sly. Oscar is known by his first name because no one can spell his last name and even if they could spell it, they couldn't pronounce it—that is unless they can sneeze three times in succession and wind up with a hicough.

Most people think of Oscar as the inventor of sauces and as a stately maître d'hôtel. Here is his first poem:

Little children learn to serve  
Hearts within and God above,  
Fiery spirits flitting by  
Told for beauty and for love.  
He wrote the poem for a book of verses, the proceeds of which go to the milk funds for New York children. He writes on the same pages with Arnold Bennett, James Whitcomb Riley and other notables without a blush.

New York has a crane-banger of the lowest possible type. Heless his subscription to the paper has made public an offer to was paid up in a week. Fifty-thousand the Ford Peace Ensign in the event of the ship's being torpedoed.

Three hundred and twelve persons have been killed by automobile in the streets of New York

during the last eleven months. This is a 20 per cent increase over the figures of 1914. Safety societies seem powerless to stop the slaughter. The killing goes on at a steadily increasing rate. Police and magistrates with their heralded campaigns have not even checked it.

Recruits are now being called out for the Snow Army. The first heavy snow of the year always hits New York hard and completely ties up traffic. Commissioner Fetherston has decided to be prepared and is enlisting men for the first battle.

The fact that it has been quite hard to secure laborers for the job indicates that there are very few men out of steady employment in New York. Last year the city was weeks and weeks clearing the streets and unless enough men can be secured the same condition will exist this year.

**Keep Your Heart Going**  
Keep your heart going that love may not fail,  
Keep the wind blowing to waft the fair sail.  
Keep your soul singing,  
That all may be well  
Wherever you winging  
The dreams of love's spell.

Keep your heart going—all day is not long  
To keep the heart going in a shine and song.  
To keep the soul flitting  
From the shadows and strife  
To love, the high-gifting,  
The true gift of life.

Keep your heart going, and battle shall seem  
But a dust in the desert, the wound but a dream.  
Set the song soaring  
And with it, so clear,  
Shall sound o'er life's roaring  
Love's song on the ear.

Paris, Dec. 6—"France will not make peace until Alsace and Lorraine are won, Belgium and Serbia restored, and "German imperialism and Prussian militarism are put beyond the possibility of resurrection," Albert Thomas, under-secretary of war, said yesterday. The declaration of M. Thomas is attracting widespread attention and is one of the first statements from a responsible cabinet concerning the attitude of the government in regard to peace.

### THE SIXTY FOURTH CONGRESS OPENS TODAY

**THOUSANDS AT CAPITOL TO SEE CONGRESS OPEN; FIRST REQUEST WILL BE FOR EQUAL SUFFRAGE**

Washington, D. C., Dec. 6.—The opening of the sixty-fourth congress today drew thousands of persons to the Capitol. The day began with overcast skies and sharp, cold winds, but this did not dampen the enthusiasm of the crowds. Hundreds began gathering at the historic building early, and long before noon, the hour set for the fall of the gavel in the house and senate, signaling the opening of the congress, the galleries had filled to overflowing. Outside were hundreds waiting in the hope of getting much coveted seats. Many of them were doomed to disappointment, however, as those who had not already obtained tickets stood little chance of being admitted. Seats had been reserved for the president's official family, the diplomatic corps and members of the families and their friends. Many visitors, including noted suffrage advocates, had been drawn to the Capitol to witness the opening of the Susan B. Anthony constitutional amendment for equal suffrage as the first request of the new congress.

**WILSON'S RENOMINATION EXPECTED BY MEMBERS OF NATIONAL COMMITTEE**

Washington, D. C., Dec. 6.—William F. McGowan, one of the members of the Democratic National committee, was here today for the meeting of the committee tomorrow, which will prepare for the coming presidential campaign.

Interest, perhaps, in the committee's deliberations centers in the selection of the time and place for the next Democratic national convention. Seeking the honor of being the "convention city" are Chicago, St. Louis, Dallas, San Francisco. Delegations from each of these cities were said to be prepared to offer the committee each inducement, as well as convenience.

But Mr. Wilson, it is announced, occupies a neutral position in the contest. The committee also will consider the work of the administration of congress and elect a secretary to succeed Ralph W. Hoar, who will resign tomorrow, and a successor to E. Davis, of Wisconsin, who resigned as secretary. The committee of Thomas J. Penick, of the assistant to Chairman McGowan, was forecast. It is said authoritatively that the committee will not formally announce its preferences for the next year's candidate until after the Wilson's renomination is decided by all the members.

**JAP BARON VISITS WILSON**

Washington, Dec. 6.—President Wilson had on his list of callers today Baron Shibusawa, a prominent Japanese, who is touring this country in the interest of the International Sunday school congress to be held in Tokyo, after the war.

The baron, discussing the movement to restore peace in Europe, declared the warring nations must look principally to the United States to pave the way to that end.

Baron Shibusawa expressed the conviction that Japan would be ready to do its part in maintaining peace in the Orient and that United States and the United States will be able to do much in preventing the recurrence of such disastrous calamities to humanity as the present war.

### REBEL OUTBREAK IN CHINA

**A FEDERAL GRAND JURY IS INVESTIGATING ALLEGED NATION-WIDE GERMAN PLOT**

San Francisco, Calif., Dec. 6.—The federal grand jury is expected to resume its investigation today into the alleged German dynamite plots to destroy munitions plants in the United States and ships bearing supplies to the central allies. Interest in the proceedings of the inquisitors is heightened by the fact that since their last session an additional list has been made here—that of Baron George Wilhelm Von Brincken, charged with attempting to destroy commerce with the Allies.

Von Brincken is out on \$10,000 bail. His arrest took place after it had been held he was not, as he claimed, a military attaché of the German consul general, and hence not immune from arrest.

It is expected that Robert Capelle, agent of the North German Lloyd Steamship Company, will be brought before the grand jury, as federal officers said they knew where to lay hands on him when he was wanted. Search for him was begun following testimony in the trial of the

**SEIZE WARSHIP ATTACK POLICE**

**MOVE ON ARSENAL REPULSED; CRUISER RETAKEN**

Shanghai, Dec. 6.—A band of 30 or 40 rebels, armed with rifles and bombs attacked the Chapei sub-police station at four o'clock this morning. The rebels threw four bombs, of which three exploded. One policeman was killed and three were wounded.

A body of regular troops was brought up quickly and the rebels disappeared.

Shanghai, Dec. 6.—Circumstances disclosed today show that the crew of the Chao-Ho did not mutiny, as was at first reported, but was overpowered by the rebels who went in a launch yesterday from the foreign settlement to the cruiser. The launch drew up alongside the Chao-Ho firing the admirals flag. Admiral Sa Cheng-Ping was on board. There were about 45 men in the launch. They boarded the cruiser, each carrying a revolver and bomb, concealed beneath handkerchiefs. The rebels stripped off the handkerchiefs concealing their weapons and covered the crew with their revolvers, threatening death unless their orders were obeyed instantly.

They compelled the crew to open fire on the arsenal and the other warships. The rebels were unable to make use of the heavier guns as an officer of the Chao-Ho threw overboard the keys to the magazines containing the six-inch and four-inch shells. This action probably saved the arsenal and the foreign

settlement from serious damage. Numerous shots fell in the foreign concessions, but no serious harm was done.

Peking, China, December 6.—The government announces that it has received a telegram from General Yang at Shanghai, saying that the Chinese cruiser Chao-Ho has been repulsed with its crew, which numbered thirty-eight, and the Kiang-Nan arsenal. It is stated that the rebel band movement against the arsenal was repulsed and that peace had been restored.

Shanghai, Dec. 6.—The mutinous crew of the Chinese cruiser Chao-Ho abandoned the vessel early today after it had been bombarded and set on fire.

A band of rebels attacked the arsenal, but was repulsed. The authorities appear to have complete command of the situation. Three of the mutineers were killed and five were wounded.

Shanghai, Dec. 6.—After the engagement last evening between the Chao-Ho and the loyal crews of the cruiser Hsi-Chi and the gunboat Tung-Ching, there was no further fighting the warships until shortly after dawn. At the time the cruiser Yang-Suei opened fire on the Chao-Ho. A shot struck the Chao-Ho's mainmast.

Fire broke out on the launch which had cut out to the cruiser for the foreign settlement yesterday before the mutiny began.

The attack on the Arsenal at midnight was made from the direction of Hang Chow railway. There was some rifle firing, but the arsenal troops acted promptly and calmly and repulsed the attackers. So far it has been learned there were no casualties at the arsenal. The three men who were killed and the five wounded were shot down on the Chao-Ho. A visit to the arsenal early this morning showed that the situation was normal. The Chinese authorities have handled the outbreak with the greatest coolness.

## Shamrock Line Failed To Stop The Plunging Tigers

By defeating the Shamrocks of the East End Sunday at Millbrook the strong New Boston Tiger eleven won the football championship of central-southern Ohio. The Tigers by holding the Shamrocks scoreless also made a new record in "shut-outs." In their six games this season their goal line was not crossed once and in no game was it in grave danger of being crossed. The team averaged over 150 yards per play. The star halfback, ennobled the honor role in every game. He was greatly assisted by Fred Padan, Nutter, Matthews and Aldridge. The Tigers have a scoring machine that never quit working. With nearly the same lineup next season Manager John Herzog expects to take on some of the best eleven in the state, the Panhandles of Columbus and the strong Canton eleven, to be included in the Tiger schedule.

Sunday's game was played on a heavy field and before a large crowd of gridiron fans who braved the cold. The first half ended with neither side scoring. The Tigers had the ball continually in Shamrock territory and by making the plunges were out the Shamrocks who fell an easy prey in the second half.

The scoring started a few minutes after the third quarter began. Matthews received a 20 yard forward pass from Lyon and ran 20 yards more for a touchdown. Padan kicked goal. After entering the half by passes and plunges to the 15 yard line Lyon tore through for the second touchdown and Padan kicked goal. Test intercepted a Shamrock pass and ran 40 yards for a touchdown. Padan kicking goal. Lyon on a forward pass and a line plunge made the fourth touchdown. Padan kicked goal. Test on a line plunge made the final touchdown. Padan failed to kick goal.

Test and Lyon did the heavy work for the Tigers. Guard McLaughlin in the backfield played the best game for the Shamrocks and made splendid tackles. "Billy" Smith, quarterback, slipped through the muddy fingers of the Tigers several times for long runs.

## \$10,000 Subscribed

Ducky Holmes, who is forming a stock company to purchase the Lincoln Western League franchise from Hugh Jones, has secured an extension of his option until January 1, by which time he expects to have the full amount raised and complete the deal. The price set on the club by Jones is \$13,000 and Holmes has \$10,000 in sight in subscriptions.

## Herzie On Lookout For Second Sacker

Manager Herzog is on the lookout for another aggressive, quick thinking infielder, a lad who will measure up to himself and "Lead" Hulse. An infielder of this character may be hard to dig up, but Herzog, according to advice from his home down in Maryland, is looking up the dope on a number of promising youngsters and he hopes to find a man who will develop into a second sacker of the Johnnies.

Of course there is no time limit on his second baseman hunt. This is the open season for managers to hunt for players to fill gaps on their teams.

## Six Day Grind

New York, Dec. 6.—The seventeen teams in the six day bicycle race in Madison Square Garden were tied at 5 o'clock this morning, the end of the fifth hour with a score of 118 miles and fairs. The record for that hour is 120 miles and one 1/2, made by Thomas and Ryan at Chicago last month.

## CAN THESE MEN BE OF REAL VALUE TO WHITE SOX IN 1916? STOVE LEAGUE ASKS

Left, Joe Jackson (top) and Murphy. Right, Fournier.

The Chicago White Sox outfield looked most formidable as a hitting trio last season, and there is no doubt that the same three—Jackson, Fournier and Murphy—will be holding down these positions in the next campaign. But in order for that outfit to be of real value to the Sox it must hit about .350 in the aggregate, for as a fielding combination these never was a weaker trio on any team which had pennant hopes.

## Three Showed Class

Batting averages often come pretty near to telling the truth. In the case of the American League last season they actually do so. There were only three teams of any pretense to class in the league and these three are way out in front in team batting. The Tigers easily

## EIGHT CLUBS TO COMPRISE LEAGUE

Tacoma, Wash., Dec. 6.—Though Joe McGinnity has been stung hard in his attempts to operate a ball club in Tacoma for the past two seasons, he does not mean to quit and with a new circuit in sight for next year he is optimistic in his opinion that Tacoma will "come back" as a ball town. An eight club league is being planned for the northwest.

## 14 MEN ON SOUTHERN TEAMS

The controversy raging in the Southern League over who was responsible for agreeing to a cut in its salary limit at the San Francisco meeting seems to have been settled by President Baugh of the league, who upon his return to his home in Birmingham, was quoted as follows: "The salary limit of the Southern League was cut to \$2,800 and the player limit reduced to 14 men."

## Welcome To Join Federals

The announcement of the Chicago National League club that no players would be signed to contracts for a period of more than one season is merely a stray indication of the direction of the win. ## SUMMER BASEBALL RULE WAS UPHELD

By a vote of 6 to 3 the Big Nine Conference of the west decided to retain the summer baseball rule.

This means that college players who have not completed their academic studies cannot play professional baseball in the good old summer time.

A concerted effort was made to change the rule, but it was upheld and a player who doubles in baseball in the season and receives hard earned money for his diamond work is ineligible to take part in any form of athletics at whatever school he is attending.

## THE GOVERNMENT STAMP

Official reports sent out from Washington confirm the statements from various cities over the country, carried in The Times of Wednesday, and telling of the marked revival in manufactures and trade. According to it, in the fourth reserve district, of which Cleveland is the center, and embracing Pittsburgh, Cincinnati and the whole Ohio Valley, there is actually an unprecedented activity, marked specially by a tremendous demand for steel products. There is no lack of labor, but rather a scarcity of labor. Glass factories are operating on a fuller schedule than for months and the output of auto and rubber plants is up to capacity. Banks have record deposits and their reserves are heavy. In addition the failures of November are less than for any previous month of the year, which is taken as the best sign of all.

## WHAT ABOUT CIVIL SERVICE

There is one thing about this plan tree spectacle to which Mayor-elect Kaps has been treating the public the past few days, that calls for the thoughtful consideration of law-abiding people. And that is this—the people of Ohio voted into the constitution by a substantial majority a civil service clause. Under it laws have been made with the idea that better service be secured to the people, that trained men in various capacities should be preserved in their positions and not be subject to the many sudden changes incident to our political life. Under the civil service law our police and fire departments are supposed to be protected, so are many others in city service. Yet Mr. Kaps, the new mayor, is going blithely on, regardless of law, and planning to remove every man in the city service who is a Democrat. It does not matter if a man is competent, his politics is considered reason for a change.

As far as we are concerned, we do not believe in civil service to any great extent. We believe that if a political party gets in control, it is entitled to have its friends on the job. But the fact is we have a civil service law. It is there written in the constitution, and officials take an oath to preserve it. Mayor-elect Kaps will do so when he assumes office.

## ON CHRISTMAS EVE

One of our friends sends us a clipping from a New York paper concerning a pretty old custom long in vogue in Europe, that of extending silent greetings on Christmas Eve by having all the homes in cities and villages lighted with candles. It certainly commends itself as a most delightful way of ushering in Christmas day, and in our own state, the Marion Star is urging it upon the citizens of that city with indications that it will be generally followed. Why not try it in Portsmouth?

The clipping alluded to, from the Oxford, New York, Times, is as follows:

"Marie Davidson, in the Woman's Home Companion, tells of a charming old custom in England that would be well to follow more generally in this country. Why not Oxford try it this year and give Christmas greeting to the passer-by? The writer says:

"(Old, very old, in England, is the custom of setting lighted candles in windows on Christmas Eve to give holiday greeting to the passer-by, but little use has been made of this charming idea in our country. Baltimore, however, has had a city-wide lighting of candles which was so successful that it is repeated every year.

"Weeks before Christmas, when plans were being made for the Community Tree, it was suggested that each household set lighted candles in the parlor windows to wish 'Merry Christmas' to their fellow townspeople, not even the most enthusiastic supporters of the 'Candle Greeting' expected to see half the number of windows so lighted when Christmas Eve came.

"Scarcely a city block in any section of the city was without at least one illumination, and it was not rare to see every house in a row brightened by this evidence of 'Peace on Earth, good will to men.' It warmed the cockles of one's heart to walk through street after street with these silent Christmas greetings everywhere, and no one who has gone through such experience could ever want to know another Christmas Eve without them."

One of the little puzzling things these days is why and wherefore of the complete eclipse of Hon. Nate B. Gilliland. So far as known he has not been called into a single conference nor has his advice been asked upon a single appointment. How soon are the services of the truly great forgotten?

Reading the names of the party of nation-famous peace advocates who accompanied Henry Ford on his mission to Europe, one feels somewhat like the old Duke of Wellington when a new cabinet was announced. He did not know many of the men named and as each was read to him he shouted out, "Who, who?" The story got around and the cabinet became known as the "Who-Who" cabinet.

Mr. Mann, house leader of the Republican side, resents what he assumes are efforts of the President to enlist Republicans in support of his program. That's proof enough of the hollowness of his professions that were made not long ago.

## STRICTLY NEUTRAL

## A TIP TO THE BEST

Cincinnati quotations on apples are running Pippins \$2 to \$2.50, Baldwins \$2.25 to \$2.75, Rome Beauties \$2.50 to \$2.75, Bellflower, \$3.50 to \$3.75, Ben Davis \$1 to \$2, Jonathans \$2.50.

Other varieties than are coming into favor here in Scioto county are not quoted, but as they rank in quality along with Rome Beauty and Jonathan it is reasonable to assume they would command about the same price, if they were offered on the market. Anyway the quotations show some of the best varieties to cultivate and carry out the assertion of the Times that the Ben Davis is a good apple not to miss.

"I'm a missin' familiar faces around our new mayor," said the man who stands on the First National Bank corner every day in the year, holidays included, as he gazed upward to see if there were any new eruptions in the vicinity of the Seventh floor. "Why it used to be that Kaps could not take a step without Young Doc, Dummy, Charlie Lewis or some others of the Boy Scouts acting as escort. An' now it seems that they don't get around in the vicinity of the mayor to be except that they begin wavin' their arms and talking in bad language. And now it is Old Doc, John, Charlie the Boss and their kind who guard the owner of the plum tree. Strange, strange."

An observing citizen of Roanoke went over the business district of the city, last year, and counted thirty-three vacant store rooms. This year, in the same month, he again went over the same district and saw thirty new business buildings, all occupied, had been erected, and three of the vacant stores also occupied. A note that business is picking up.

Speaking of apples and markets, the Jones and Alban apple orchard at Camba, Jackson county, sold their entire crop, run of orchard to the Kroger Grocery Company, the price being one cent per pound. Fifty car loads were shipped. Owners of the orchard picked the apples and placed them on sorting tables where the purchasers took charge of them. The apples were sorted and graded, the small ones or defectives being used for cider vinegar.

We suppose that when Mr. Henry Ford announced before sailing for Europe that he had made his will he caused little shivers of dread to creep up and down the spines of his fellow jumpeters, and that visions of submarines and jails immediately rose up en masse before their eyes.

Oh well, it will soon be Christmas and then for a brief time the public eye will be turned away from Mayor-elect Kaps and his patronage troubles. And in the meantime, do not forget to buy your presents early. You will get a better selection and you will save yourself a lot of worry, besides. And then think of what it will mean to the proprietors and clerks of the stores.

## SUBMARINE VERSUS SUPERDREADNOUGHT

The question has again and again been asked whether the submarine does not mark the passing of the superdreadnought to the scrap heap. The big gun has certainly disconcerted armor proof. How about the submarine and the dreadnought? Sir Percy Scott in England and Admiral von Tirpitz in Germany certainly hunked on the submarine as more powerful than the dreadnought, but there is not an expert living who would answer that question with finality today. To begin with, the submarine has only begun. What improvements may develop no one knows. At time of writing the first word in submarines is the big fish in the Baltic; but that submarine may be discounted by a craft built tomorrow. The submarine has some terrible disadvantages. It has no eyes except in the daytime and does not seem able to develop any such searchlights, without betraying its own presence. A joke is told in this connection on some of the cruiser crews. The captain of the submarine crew wagged the captain of the cruiser that he could follow cruiser and destroyer out to sea below the surface and come up on them unexpectedly. The wager was taken. The cruiser and destroyer proceeded out to the practice ground. All eyes were on the watch for the bubble-track on the surface of the sea that betrays a submarine below. Suddenly, word went round to look out for the periscope on one side. A bubble trail seemed visible. "Hey—there! Hello!" shouted a voice on the other side; and the submarine lay rolling gently on the opposite side from the lookout given. A false dummy alarm of which the navy keeps the secret to itself had been given on the wrong side—a torpedo "fired" round a corner" according to young Jays Hammond's invention or some other device to mislead an enemy.

Other great disadvantages of the submarine are slow speed. It can always be sighted from an aeroplane overhead. The quarters are cramped for the crew, and the atmosphere, especially when the submarine must dive and rock at bottom—"go to sleep" is the technical phrase—becomes fearfully close, damp, cold and impregnated with gasoline that has a nasty headachy effect on the men. Though the crews decorate the ensign with skill and cross-bones for every ship sunk, though they play bridge and set a gramophone going at the bottom of the sea when hidden from attack, the strain on the nerves is terrific. The stillness is palpable. The sense of unknown danger and utter isolation will unstring the strongest. Secrecy as to submarines is quite as much to preserve the morale of future crews as to hide the horrors of death by suffocation and strangulation when caught in the enemy's net and sent to bottom for five days.—From "What Sea Power Means to England," by A. C. Laut, in the American Review of Reviews for December.

Notwithstanding all that clamor over the report of the special examiner into county financial affairs, old Scioto hasn't yet been thrown into the hands of a receiver.

Scioto county is intelligently developing her agricultural and horticultural opportunities, which is a mighty good thing for Scioto county.

Again there is talk of asphaltting the concrete portion of the Scioto Trail, but why make a bad matter worse? Brick is the thing and the only thing for that highway.

Now don't forget to mail that Christmas present early. The later you wait the greater possibility of delay and damage.

To a man up a tree it looks as though the only question our good young governor has got to solve, in appointing a saloon license commissioner for Scioto county, is whether he shall stick to his friends or throw bait to his old enemies.

As the Kansas City Star sees it, the Russians must think the Germans are not going to make it hot enough for them this winter. It may be, though, they are tired of running.

Sometimes there is nothing but pain for pay, as in the case with those Dayton burglars, who carried away and smashed an empty cash register.

Advice is sometimes surplusage, as instance, the cablegram, which warns to take the tales of bread riots in Berlin with a grain of salt.

We don't know why it is, but the coal miners, who get \$4 a day, are nearly always poor and oppressed, while the farm hand, who works for \$20 a month, acquires a competence.—Topeka Capital.

According to a statistician, few baldheaded men are found among the insane. Does this point to the reason why eminent pianists and violinists and football players have long hair?—Columbus Dispatch.

A feminine branch of Congress would be useful this winter. It could discuss prohibition and such things while the men talked business.—St. Louis Post-Dispatch.

It is not observable that the contractors are falling over themselves to repair the damages and imperfections in the water works system.

Much as they would like to assist personally in getting the boys out of the trenches before Christmas, our governors seem to be almost a unit in feeling that their place at this time is right here in this country, where they can continue to circumvent the civil service law in every way possible.—Ohio State Journal.

NEW-YORK-DAY-BY-DAY.  
BY O. O. MCINTYRE.

New York, Dec. 6.—Henry Oyen, the novelist, blew into Gotham the other day to stay a week—and left in two days. He upset a kettle of theories that New York is the place for writing men. Oyen used to migrate between New York and Chicago as a newspaper reporter and then he began to write

stories of the underworld. He picked out one of those dark, gloomy studios in Washington Square so he would be in the proper atmosphere. He played the French and Italian table d'hotes at night with the rest of the fringe—those who starve in the literary attics and knock editors who wear horn-rimmed glasses.

One night Oyen went to his favorite cafe. Three stories had been returned to him that day. At the lag end of the evening he rose from the cigarette-littered table, took a good look at the tablecloth stained a water red from the vin ordinaire and covered with sick-looking demitasse cups. He casually bade his friends good night.

Party-eight hours later he was jipping a paddle in a pine-ringed lake in a wilderness 1500 miles from New York. He began to write of the woods, of the husky lumberjacks, the great sinewed naive children of the forest—men with hair on their chest instead of the sickly, pale, cocaine-smiling misfits of the underworld. He says he will never return. He has found the life.

Oscar, the far-famed manager of the Waldorf, has been courting the muse on the sly. Oscar is known by his first name because no one can spell his last name and even if they could spell it they couldn't pronounce it—that is unless they can sneeze three times in succession and wind up with a hiccough.

Most people think of Oscar as the inventor of sauces and as a stately maître d'hôtel. Here is his first poem:

Little children learn to serve  
Hearts within and God above  
Fiery spirits flitting by  
Toil for beauty and for love.  
He wrote the poem for a book of verses, the proceeds of which go to the milk funds for New York children. He writes on the same pages with Arnold Bennett, James Whitcomb Riley and other notables without a blush.

New York has a crane-hanger of the lowest possible type. He has made public an offer to thumbprint the Ford Peace Envoys in the event of the ship's being torpedoed.

Three hundred and twelve persons have been killed by automobiles in the streets of New York

during the last eleven months. This is a 20 per cent increase over the figures of 1914. Safety societies seem powerless to stop the slaughter. The killing goes on at a steadily increasing rate. Police and magistrates with their heralded campaigns have not even checked it.

Recruits are now being called out for the Snow Army. The first heavy snow of the year always hits New York hard and completely ties up traffic. Commissioner Fetherston has decided to be prepared and is enlisting men for the first battle.

The fact that it has been quite hard to secure laborers for the job indicates that there are very few men out of steady employment in New York. Last year the city was weeks and weeks clearing the streets and unless enough men can be secured the same condition will exist this year.

Keep Your Heart Going  
Keep your heart going that love may not fail,  
Keep the wind blowing to waft the fair sail.

Keep your soul singing.  
That all may be well  
Wherever you winging  
The dreams of love's spell.

Keep your heart going—all day is not long  
To keep the heart going in sunshine and song.  
To keep the soul lifting  
From the shadows and strife  
To love, the high-gifting,  
The true gift of life.

Keep your heart going, and  
Buttle shall seem  
But a dust in the desert, the  
wound but a dream.  
Set the song soaring  
And with it, so clear,  
Shall sound o'er life's roaring  
Love's song on the ear.

Booming the Circulation

Hungry Angels  
One evening during the summer, as Pauline's mother was putting her to bed, she said:

"Now, go right to sleep, dear. Don't be afraid, for God's angels are watching over you."  
Shortly after, while the mother and father were reading in the library, the child called to her mother.

"Yes, dear," replied the mother, "what is it?"  
"God's angels are buzzing around just awful, mother," cried the little girl, "and one of 'em's bitten me!"—Chicago Herald.
